Truck Train, Last Feature of Loan Campaign, Here Tonight

SANTA ANA'S QUOTA LESS THAN HALF PLEDGED

Here Are Bond Sales Reported By Many Towns

FOLLOWING is the quota and subscribed amounts to the Victory loan in the various districts of the county:

S. A. Banks—	Quota.	Subsc.
First Nat'l	\$ 744,950	\$304,250
Orange Co.	159,950	73,450
Calif. Nat'l	98,300	61,300
F. & M.	68,850	55,700
	\$1,072,050	\$494,400

Town—	Quota.	Subsc.
Anaheim	\$ 282,100	\$ 179,250
Brea	16,000	30,350
Buena Park	8,550	4,300
El Toro	18,200	13,400
Fullerton	214,400	174,300
Garden Grove	30,350	32,750
Gloryetta	4,300	6,450
Greenville	18,200	14,400
Harper	4,250	4,500
La Brea	3,450	3,500
La Habra	18,850	11,450
Laguna Beach	25,900	25,900
Newport Beach	7,500	7,150
East Newport	3,450	3,500
Olive	1,250	1,300
Orange	15,100	16,150
Placentia	271,800	175,300
San Juan Capis.	43,900	42,500
Santa Ana prop	28,950	25,300
Talbert	994,900	433,700
Winstin	6,250	850
Wintersburg	40,500	41,000
Westminster	6,250	300
Yorba Linda	6,250	1,550
	11,950	12,000
	\$2,082,600	\$1,656,850

Thirteen of Eighteen Days Pass and Only \$595,000 Is Subscribed

THIRTEEN of the eighteen days of the Victory Loan campaign have passed, never to return—and Santa Ana has not yet subscribed one-half of her quota of \$1,072,050. The subscription total at the close of the banks yesterday afternoon was \$494,400.

The first thirteen days of the fourth loan, \$518,750 passed through the local headquarters. On this loan only \$215,490 has passed the office of County Chairman R. L. Bisby.

The difference between the amount passing through headquarters and reported by the banks, represents, in a measure, the amount of volunteer subscriptions.

Tonight practically will see the end of special features in Santa Ana to stir home people to buy bonds. The Orange county truck train, an exclusive feature in this county, will be in this city. It will be at Liberty Park. A meeting will be held. The Huntington Beach band will play. This perhaps will be the last big public demonstration before the campaign closes. The truck train has brought results wherever it has been the center of a bond selling meeting. Tonight Santa Ana people will compete with other Orange county cities for the honor of making the largest purchases at a truck meeting.

On the truck are displayed guns similar to those used in the front line trenches. The guns will be explained by men competent to tell of their operation. Every gun is in the hands of an expert.

The naval part of the exhibit will be an explanation of the growth of the submarine, its efficiency, manipulation and its use during the war. On one of the trucks is an 18-foot torpedo, which will be explained in detail and a practical illustration given of the propelling power of the destroyer.

"Pop" Endicott and his band from Huntington Beach will give a concert. Prof. Gustaf will have the combined boys and girls glee clubs of the high school present.

Will Tell of Thrills
Sergt. W. F. Brashears, Sergt. Eicher and Private A. C. Bemis, Yorba Linda boys who went over the top in France, and a number of Santa Ana men who have returned from overseas will be present to tell of the thrills they had over there.

The meeting will be both entertaining and educational.

Investigation of records of purchases on the Fourth loan and comparison with this shows that many people who were large purchasers in the last loan have done nothing in this, and that some who made good investments have cut their subscriptions to the final from 50 to 75 per cent.

DON'T HUMILIATE SON
"Did your dad buy a Victory Liberty Note?"

A question that may be put to your son by a playmate. See to it that your lad is not humiliated.

The citizen who fails or hesitates to buy a Victory Liberty Note discredits the Nation's educational system.

There should be a bond of sympathy between a blind man and the citizen who fails to buy a Victory Liberty Note—neither can see a good thing.

GERMANY MUST SIGN OR FACE ISOLATION

PARIS, May 6.—The Germans must sign the peace treaty or face economic isolation.

This was made plain today when the blockade section of the supreme economic council was instructed to draw up plans for economic isolation of Germany—to be put into effect if the enemy attempted to carry out its threat to refuse the peace terms.

BULLETINS

NEW YORK, May 6.—Twenty-seven cars of oranges and three cars of lemons sold. Orange market 10 to 15 cents higher. Average, \$3.30 to \$6.01. Highest price, Golden Cross, Rosemary and Echo, \$6.40. Lemons 10 cents higher. Average, \$3.89 to \$4.95. Weather cloudy; 8 a. m. temperature, 53.

PARIS, May 6.—The secret plenary session of the peace conference adjourned at 5:15 this afternoon after hearing read a summary of the German treaty prepared by Captain Andre Tardieu. The treaty is now understood to be ready to be presented to the German delegates tomorrow afternoon. Announcement was made at the conclusion of today's meeting that China, Siam, Panama, Guatemala, Nicaragua, Hayti and Honduras will be represented in tomorrow's meeting.

SAN FRANCISCO, May 6.—Intensive campaigning and impassioned appeals to the home town spirit in putting across the community quotas, boosted the Twelfth Federal Reserve District subscriptions to the Victory Loan to \$117,549,300 at noon today. Many communities finished their quotas today. Southern California subscriptions at noon totaled \$16,483,300 and Northern California, \$28,707,400.

BUSY WOMEN SHOW GOOD FIRST DAY RESULTS

Subscriptions Are Secured In Good Number and Work Moves Ahead

THE members of the Women's Honor Club are active.

Results have commenced to show and today the returns are most satisfactory for the first day's operation. The returns reported today are for the campaign conducted yesterday. The women have hardly gotten into fighting trim as yet, but their efforts are being appreciated and volunteer subscriptions are being made in many instances.

Miss Muriel McPhee was a new volunteer worker today. She has started a \$100 club. She wants ten members—and at once. She will not object to more, but she isn't going to quit until she has the signatures of ten people to applications for a \$100 bond each.

Mrs. A. J. Lawton, chairman, and Mrs. J. W. Sackman, secretary, were busy today at their headquarters in the W. H. Spurgeon building, in the office of the W. H. Spurgeon Realty Company. With reports of club chairman coming in and women seeking information, they have plenty to claim their attention and occupy their time in directing operations.

"EVERY WOMAN BUY A BOND OR SELL A BOND."

There's a slogan for the women of Santa Ana. There's an opportunity for them to assist in saving the honor of Santa Ana. If every woman either sold or bought, the city would go over and beyond the top.

Over Friday Night

Over the top by Friday night is the ambition of the Women's Honor Club. It will be some honor, too, if they can drag the city out of the position it today looks like it will be in when this is written on the present campaign next Saturday night.

Dr. Mary Wright, who has two sons in the service, and whose heart is in the movement to have the honor of this city, has organized a \$1000 club of ten units and seven of the units of \$1000 each she has sold to F. B. Brown. She needs three more to complete the club.

Mrs. H. M. Sammis' \$1000 club was increased by \$1000 with a subscription.

(Continued on Page Two)

PLAN FIGHT ON 'PHONE RATES IN COUNTY

Farm Bureau and Associated Chambers of Commerce To Meet Today

SANTA ANA BUSINESS MEN CONFER TONIGHT

District Attorney West to Make Statement Covering Legal Situation

COMMITTEES, farm centers and civic organizations all over the county are preparing to fight for a readjustment of telephone rates and tolls.

With a meeting of the committees of the County Farm Bureau and Associated Chambers of Commerce this afternoon, and a meeting of Santa Ana business interests tonight, there is every reason to believe that within a day or two some course of action will be laid out by which the people of Orange county, under competent leadership, will take up the fight.

Just what can be done and what steps are best to be taken at this time are still to be determined. It is through these conferences that plans will be made for early action.

Tonight a meeting of the directors of the Merchants & Manufacturers, the directors of the Chamber of Commerce and of the City Trustees will be held at the city hall. District Attorney L. A. West has been asked to be present at this meeting to make a statement covering the legal situation.

The orders for taking out telephones are still coming into nearly all of the exchanges in the county. While Tustin probably has the largest percentage of telephones ordered out, Placentia is not far behind. Placentia has a small exchange, but has had free tolls with Anaheim and Fullerton. The feeling at Anaheim is strong.

The telephone question was discussed at the meeting of the Anaheim Farm Center and at the El Modena Improvement Association last night, and while expressions that a great injustice is being worked upon telephone subscribers, no action was taken at either place, it being the sense of those meetings that action be not taken until after the meeting of the Farm Bureau and Associated Chambers of Commerce committees this afternoon.

ITALIAN CREDENTIALS ARRIVE
PARIS, May 6.—Credentials of the Italian peace delegates were submitted to the German plenipotentiaries this morning.

Italians on Way To Be Present When Treaty Is Given Germans Tomorrow

President Wilson to Head American Delegation at Ceremony

BY FRED S. FERGUSON

(United Press Staff Correspondent)
PARIS, May 6.—With the Italian delegates speeding back to Paris, the final step was being taken today in preparing the peace treaty for presentation to the Germans tomorrow. This consisted of a secret plenary session of the conference at 3:30 p. m. today, at which the pact was presented to representatives of the lesser Allied powers for ratification.

Premier Orlando and Foreign Minister Sonnino, who left Rome last night, will arrive in ample time for participation in the ceremony of submitting the terms to the German delegates, scheduled for 3 o'clock tomorrow afternoon. Admission to this meeting will be confined to plenipotentiaries of the United States, Great Britain and her dominions, France, Italy, Japan, Belgium, Brazil, Greece, Poland, Portugal, Rumania, Serbia and the Czechoslovak republic with one secretary each; six German delegates and newspaper correspondents. The latter will include thirty for the great Allied powers and dominions, ten for powers with special interests and five Germans.

Wilson to Head Americans
President Wilson will head the American delegation and will be accompanied by Colonel House, Secretary Lansing, Henry White and General Bliss.

Hungarian peace delegates have been summoned to the conference, it was announced. They are expected to arrive in St. Germain on May 15, being preceded about three days by the Austrian envoys. Work on the Austrian and Hungarian treaties will proceed simultaneously.

Marquis Imperiali, Italian ambassador to France, was given the seat of honor at yesterday's meeting of the organization committee of the League of Nations on motion of Colonel House. The American delegate called the meeting to order and asked Foreign Minister Pichon to take the chair.

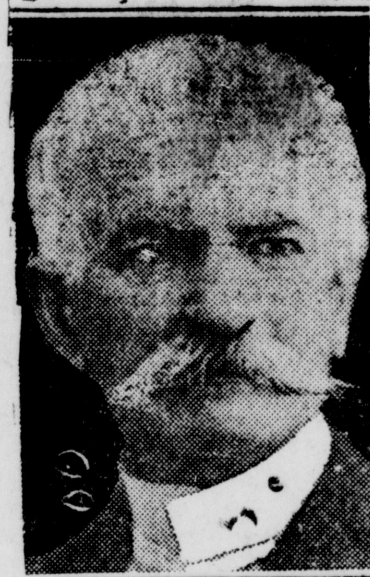

Drummond is Seated
Sir Eric Drummond was invited to occupy his place as secretary-general and Imperiali was seated at Pichon's right.

Drummond was authorized to proceed with temporary arrangements, such as appointing temporary secretaries and arranging for temporary quarters. Care was taken to avoid any action anticipatory of ratification of the covenant and the treaty.

The next meeting is subject to the call of Drummond and further preliminaries probably will be disposed of in London before the initial meeting of the League in Washington. Those who attended the session yesterday were House, Pichon, Imperiali, Drummond, Lord Robert Cecil, Viscount Chinda, Rolin Jacquemines of Belgium, Premier Venizelos, Senor Magalhães of Brazil and Senor de Leon of Spain.

ROME, May 5.—Premier Orlando and Foreign Minister Sonnino left for Paris on a special train at 10 o'clock tonight. Dispatches received from Sebanico today said all societies in the mass meeting at which Mayor Lombardi presided passed resolutions declaring the city annexed to Italy.

Sebanico is the second Dalmatian city to declare annexation to Italy. Zara was reported to have taken that step in dispatches received yesterday.

SIDNEY SONNINO

U. S. OVER OCEAN AIR TRIP HELD UP BY WINDS

ROCKAWAY BEACH, N. Y., May 6.—Three American navy planes will not start for Halifax today preliminary to their trans-Atlantic flight, it was announced. Head winds forced a postponement.

Weather conditions for Wednesday and Thursday were reported as unfavorable for starting the flight.

The three machines are all ready to start, it was announced. The damage done by fire in the hangar yesterday was speedily repaired.

Commander J. H. Towers, "admiral" of the flotilla, will fly in the NC-2, according to present plans. Others in this machine will be Commander H. C. Richardson, Lieutenant R. D. McCullough, Lieutenant Commander H. L. Lavender, L. R. Moore, Lieutenant B. H. Rhodes.

The NC-4 will be handled by Lieutenant Commander A. C. Reed, Lieutenant E. F. Stone, Lieutenant W. Hinton, Ensign H. C. Rhoda, Chief Special Mechanic E. H. Howard and Lieutenant J. L. Breeze.

The NC-1 goes in command of Lieutenant Commander P. N. L. Bellinger, with the following crew: Lieutenant Commander N. A. Mitscher, Lieutenant L. T. Barinart, Lieutenant H. M. Sodenwater, Chief Machinists' Mate C. J. Wesler, Machinist R. Cheristensen.

ST. JOHNS, N. F., May 6.—Another American destroyer, the 168, ran aground at Trepassy Bay this morning while trying to assist the destroyer Foote, which went ashore during the night. The 168 is only lightly aground. The Foote has a list of 10 degrees.

"BRIDGE OF SHIPS" DESTROYER IS DRIVEN ASHORE BY STORM
BY A. E. JOHNSON

(United Press Staff Correspondent)
ABOARD U.S.S. PRAIRIE, TREPASSY BAY, N. F., May 6.—Weather conditions for the trans-Atlantic flight have been unpromising so far.

The destroyer Foote was driven ashore early today by a westerly gale which reached its maximum intensity at 1 a. m. Naval men expect to refloat the Foote at high tide when the weather moderates. Three destroyers dragged their anchor in the storm.

The Kalb, Meredith, Dush, Cowell and Middel are ready today to depart for the Azores to form part of the long line of navy craft placed at fifty-mile intervals—which is intended to make the seas safe for the American planes when they actually start across the Atlantic.

There was considerable interest manifested today in the rumor that the British aviators Hawker and Raynham, who have been at St. Johns for weeks waiting to start across with their Sopwith and Martinsyde planes will make the jump as soon as the American "bridge of boats" is properly placed so they will be taken care of in case of accident.

AUSTRIAN PEACE MEN TO LEAVE THIS WEEK

VIENNA, May 6.—The Austrian and Hungarian delegates will leave for the peace conference the end of this week, it was learned today. The party will consist of thirty delegates and assistants, twenty secretaries and four newspaper correspondents. M. Dartlein will head the delegation.

HUGE CROPS EXCELLENT BUSINESS FORECAST

Reports to Federal Reserve Board Indicate Great Year For Nation

COUNTRY RECOVERED FROM SHOCK OF WAR

Much Material on Docks For Export; Building Is Being Resumed

WASHINGTON, May 6.—American business apparently has largely recovered from the shock of war and is set for an unprecedented year of prosperity, according to reports reaching the federal reserve board.

Increasingly large volumes of raw materials on dock for export; prospects for a record grain crop and "surprisingly satisfactory" industrial conditions combine to present a reassuring situation to the nation," according to a statement given out by the board today.

The nation's recuperative powers were brought into full play and "business generally is on a better footing," the statement said.

The board entertains no fears as to unemployment. The floating supply of labor, threatening trouble in February and March, has been largely absorbed, the board's statement shows.

Rectification of conditions will continue most of the summer months, the board believes. Plans for building operations and expansion in industry held in abeyance during the war, are beginning to materialize, the board says.

Relative to export trade the statement says:

"Export trade during the month has been large, although it consisted largely of raw materials. Nevertheless interest in export trade is growing and substantial increases have occurred during the months (April and May).

"Shipping rates have shown a decided downward tendency while organization of an investment trust for the purpose of encouraging the absorption of foreign securities has made a practical beginning in financing export business. The organization of associations for the purpose of facilitating foreign trade indicates a continued interest on the part of manufacturers, both large and small, in the development of markets abroad."

TRANSPORT ARRIVES WITH 1399 SOLDIERS

NEW YORK, May 6.—The transport Housatonic arrived here today with 1399 officers and men aboard. She sailed from Bordeaux April 23.

The complement of the Housatonic included the First anti-aircraft machine gun battalion complete, 113th field battalion signal corps, Fifth air service casual company, 160th aero squadron and 353th aero squadron.

ONE YEAR AGO TODAY

GERMANS break Allied positions north of Bethune.

French made vain effort to wrest heights of Mt. Kemmel from Germans.

German raids gather information to reopen drive for the channel ports.

Heavy rains save Allies from attacks planned by the Germans from Soissons to Rheims.

Allies hoping American troops will arrive in numbers before it is too late.

SUBSCRIBE NOW TO THE VICTORY LIBERTY LOAN WHAT YOU WOULD HAVE PAID FOR VICTORY THEN.

ARE WE REAL AMERICANS? — WE ARE!

Orange county must not, can not, fail to raise its quota for the Victory loan.

After the highly satisfactory record for patriotic endeavor made by our county during the war and since the armistice was signed, to fall down now would be so humiliating that not one of us could do otherwise than feel ashamed to look our soldier boys in the face.

To the real American the 4 3/4 per cent and tax exemption features of the Victory notes are minor considerations. THE BIG THING IS THAT THE COUNTRY NEEDS THE MONEY—\$4,500,000,000—TO SETTLE THE PRESSING WAR COSTS. This real American is the same kind of an American who, when called to war, didn't stop to

consider whether we were right or wrong, or whether he would be maimed or wounded, but quit his job and answered the call to arms, as volunteer or drafted man.

To real Americans the government of the United States comes for the Victory Liberty loan. This is the second largest loan asked. It will require the united efforts of the people to make good, and everybody should respond promptly and patriotically. The war expenses have been incurred and every dollar of America's obligation should and will be paid in full.

Our country and our city must do their parts. We have been given definite goals to reach. Nothing short of "going over the top" will be permitted by any patriot.

(Continued from Page One)

taken from Chas. F. Heil yesterday.

Three more units were subscribed yesterday in Mrs. Cora Cavins' \$500 club, Mrs. E. D. Burge buying two and Mrs. Amelia Vanderlip one.

J. J. Van Vly, Mrs. M. Allen and Mrs. Amelia Vanderlip were added to Mrs. W. F. Menton's \$500 club.

Other Honor Club bond buyers reported since yesterday noon, include the following:

H. Neill Co., Walter Neill, Miss Mary Walker, Miss Lillian Walker, Mrs. Cora Walker, John E. Headley, Wm. Pen-nock, Mel Smith, A. S. Wells, Stanley Tummond, Mrs. O. E. Hubbard, Maurice Phillips, G. B. Simmons, J. J. Hunt, Mrs. Mildred Biddick, Capt. F. Schute, A. E. Confer, Clyde Alling, Miss Jesse Fowler, Nick J. Pluneda, Julius Meyer, Jr., Elizabeth A. Lawton, John M. Allen, Chas. B. Edenfield, Miss Margaret Von Essen, Mrs. Stella Menges, M. R. Scott, Miss Ada Borden, Mrs. Matilda Boyd, Nat H. Neff, Dr. Mary E. Wright, Dr. Caroline Payne Jackman, Women's Baptist Missionary Society, Fraternal Aid Union.

KOREAN ASSOCIATION REOPENED AT TOKIO

TOKIO, May 6.—Official advices from Vladivostok state the offices of the Korean National Association there recently closed by the Russian authorities, have been reopened.

R. I. Kohl, head of the association in Russia, issued a proclamation that the Koreans have decided not to submit to Japanese law, pay taxes or respect officials in Korea appointed by the Japanese governor general, say the advices to the foreign office.

HOLLAND MAY REFUSE TO GIVE UP WILHELM

THE HAGUE, May 6.—That Holland will refuse the expected demand of the Allies to turn William Hohenzollern over to them for trial was indicated in information obtained from confidential sources today.

A commission of the best international lawyers in Holland appointed to examine the question has made a secret report to the Dutch government. This report, it is reliably stated, recommends that Holland act strictly in accordance with international treaties to which she is a party.

The government contends the former kaiser entered this country as a private citizen and that Dutch law applies to his case.

WOMEN OF RENO, NEV., GETTING FIRST VOTE

RENO, Nev., May 6.—Men and women of Reno are voting today in one of the most interesting city elections held here in years. It is the first city election in which women participated. The women's vote, it is admitted, will decide the issue.

Interest centers about the three-cornered contest for mayor. The candidates are Mayor Frank Byington, Democrat; Harry E. Stewart, Republican, and Glenn Hurst, Republican. The election is non-partisan. The fact that there are two Republican candidates may be counteracted by what the Republicans claim, is a split in Democratic ranks for and against Byington.

17 PERSONS INJURED IN TRIANGULAR CRASH

LOS ANGELES, May 6.—Seventeen persons, including five city firemen, are suffering from more or less severe injuries today as a result of a three-cornered collision between a street car, automobile and fire truck at Seventh and Central avenues late yesterday. The fire truck was answering a false alarm.

None of the injured will die. Most of those hurt are suffering from cuts by a large amount of flying glass and splinters.

Scissors and knives sharpened; umbrellas covered at Hawley's.

MEETING FOR IRISH PEACE MEN CALLED

DUBLIN, May 6.—The lord mayor decided today to call a special meeting Saturday, at which prominent citizens and officials will meet the Irish-American delegation to the peace conference, consisting of Frank P. Walsh, Edward P. Dunn and Michael Ryan. On Thursday the delegation will go to Limerick to receive the freedom of the city.

AVOCADO GROWERS MEET AT PASADENA

May 9 and 10 Are Days For Gathering at the Hotel Maryland

Programs have been prepared for the fourth annual meeting of the California Avocado Association, which will be held in Pasadena May 9 and 10. The place of meeting will be the Hotel Maryland, and avocado growers and those interested in this new fruit will journey to the Crown City from throughout California.

A feature of the two days' meeting will be an informal dinner set for Friday evening at the Maryland, at which there will be a discussion of subjects connected with the growing and marketing of the avocado.

Dr. H. J. Webber, of the citrus experiment station here, will give an address at the conclusion of the dinner, taking for his subject "Some Scientific Problems Which Remain to Be Solved." Saturday forenoon Dr. Webber will talk on the "Report of Committee on Varieties." Another Riverside speaker will be George S. McClure. His subject will be "What About the Market?"

Sessions of the meeting will be at 10 a. m. and 2 p. m.

8000 MEN WANTED FOR U. S. ARMY IN SIBERIA

WASHINGTON, May 6.—Eight thousand men with previous military training are desired by the army to enlist for three years' service in Siberia, the war department announced today.

Seven thousand of these are to be infantrymen. Three-year enlistments of 300 infantrymen for service in Alaska also are desired.

Siberian enlistments are desired to replace men enlisted for the duration of the war.

8 KILLED, 14 INJURED IN COLUMBUS, O., FIRE

COLUMBUS, Ohio, May 6.—Eight persons are known to have been killed, fourteen injured and at least one person is missing in a fire which ruined the Philadelphia apartment house here early today.

Police and firemen today searched the ruins for additional bodies. About twenty children are known to have lived in the building, a six-story structure, and many of these are unaccounted for, it is said.

The building had but one fire escape. Flames spreading through the structure cut off this avenue of escape to those in the front part of the building.

New 50-Cent Gifts To the Users of Jiffy-Jell

We Pay 10c Each

Star Dessert Mold—Style H
New Pint Mold of pure aluminum. Serves a full package of Jiffy-Jell. Value, 50c. Send five JJ trade-marks for it.

Salad Mold—Style D
Pure aluminum. Over pint size. Serves a six-portion vegetable salad or meat loaf, made with a package of Lime Jiffy-Jell, plus vegetables or meat scraps. The six indentations mark the six portions. Value, 50c. Send five JJ trade-marks for it.

Fruit Salad Mold—Style E
Pint mold of pure aluminum, to serve a full package of Jiffy-Jell mixed with fruit, or a plain Jiffy-Jell dessert. Value, 50c. Send five JJ trade-marks for it.

Individual Dessert Molds
Pure aluminum, in assorted styles. Six will serve a full package of Jiffy-Jell. Value, 10c each. Send one JJ trade-mark for each, or six for a set of six molds.

TO INTRODUCE BOX FUMIGATION METHOD

Harper Men Go to San Joaquin Valley to Explain System

W. B. Mellott and C. A. Wilkinson of Harper left today for the San Joaquin Valley, where they expect to interest citrus growers of Lindsay, Tulare, Lemon Cove and Visalia in fumigation by the box method. They will take orders for the fumigation boxes and will arrange for a crew to do fumigating there commencing probably the middle of July.

These men are interested in the Modern Fumigation Company. Instead of tents, a box is used, jointed in a way to make it easy to handle. The fumigators interested in it say that the method has many advantages. Work can be done in the daytime. When tents are used, work must be done at night as light penetrating the tent acts upon the gas and burns the tree. The Harper men say that their boxes result in effective work, for they are airtight and take less cyanide than do the tents.

Phone your order for Cottage Cheese. Delicious and nourishing. Excelsior Dairy Co. Phone 237.

'SYRUP OF FIGS' IS CHILD'S LAXATIVE

Look at Tongue! Remove Poisons From Stomach, Liver and Bowels

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear.

YOUR CONSCIENCE

How do you stand with your conscience?

The question is asked with reference to what you have done, or have failed to do, in support of the Victory Loan.

This same question has been asked of every individual toward the close of each of the four preceding loans. It is asked today more insistently than ever, for today the subscription is more a matter of conscience than it was while fighting was going on.

While our soldiers were in the front line, we were under a strain of excitement. We went forward under the stress of aroused patriotism. Today we are not under heavy strain. Our financial responsibilities toward the government, however, are just as great today as they were before the armistice was signed, for we are now paying for the thing for which we were then striving with all our might, regardless of the money price.

It is useless to argue in behalf of the Victory Liberty Loan. One might as well argue in behalf of the Ten Commandments. Everybody knows the situation—knows the nation's need of funds in connection with the cost of the war; knows that these bonds are a good investment; knows that everyone able to subscribe for a bond, if for no more than a \$50 one in installments, is sacredly bound by duty to subscribe.

This is not a week for argument or for many words. It is a period for resolute, big-hearted, quick action—such action as true Americanism inspires. Santa Ana must come through the drive with an oversubscription, that the fifth star may be added to its crown of liberty loan oversubscriptions.

FACTS ABOUT FIUME

In view of the critical importance of the Italian situation, it is desirable that, even at the risk of wearisome repetition, every American should understand the precise nature of the Italian claims to Fiume and Dalmatia.

So far as anything tangible and definite can be found in Italian utterances on the subject, Italy seems to claim the regions in question on three grounds.

First, they were promised her in the treaty of London, made with Great Britain and France before she entered the war.

Second, they are primarily Italian, a part of "Italia Irredenta," and therefore belong to Italy on the principle of "self-determination."

Third, they are strategically necessary for Italy's safety.

The first is a misrepresentation. The treaty of London gave Fiume not to Italy, but to Croatia, of which it forms a geographical part. That same treaty gave Italy certain Dalmatian islands and ports, but by no means all of the Dalmatian coast and none of the hinterland.

The second claim also appears to be a misrepresentation. A technical case might be made out for the city of Fiume proper, which by official count is said to contain about 40,000 people, of whom 24,000 are Italians. But the suburbs, which Italy wants to annex along with Fiume, and which naturally go with it, are so predominantly Slav that they give for the entire Fiume district a total of 100,000 Slavs to about 30,000 Italians. Dalmatia is still more strongly Slav, having 600,000 of that race to 18,000 Italians.

The third argument seems to carry little weight because Austria-Hungary, the powerful enemy against whom Italy felt obliged to make herself secure, is annihilated, and in her place are several small, free nations, none of which need be feared by Italy if she plays fair with them. It is also pointed out that there is less reason than ever to fear the Slavs because Russia, the greatest Slav nation, is practically impotent so far as Italy is concerned. Moreover, Italy has already obtained full and free possession of more than all the strategic cities, harbors, mountain passes and land areas which she declared necessary for her safety when she entered the war.

A LESSON FOR US

The success with which the work of exterminating ground squirrels in Orange county is going forward reminds us that there are a good many undesirable things in this world that

we could rid ourselves of if we took the time to do it, if we proceeded carefully and systematically along the lines that we know will bring the results.

It has taken a number of years of educational work to convince some of the owners of big ranches that the effort could bring about the desired results. It has also taken years of experiments to develop the best methods of fighting the squirrel pest. It has never been difficult to kill the squirrels upon a piece of ground a few acres in extent. All that was necessary was perseverance. When it came to getting rid of the "sassy" little pests upon a large area, old-timers thought the job hopeless, as probably it was in the days when squirrel mounds were more numerous than street intersections are now.

Owners of big ranches in Orange county welcomed the opportunity to make a county-wide attack upon the rodent whose depredations had been going on for years unchecked. They recognized that it was not so much a matter of the money they spent as it was of getting co-operation from all of the ranchers and the public authorities. They faced the same problem that the thrifty citrus grower faces when he finds his orchard being infected from the orchard of his neighbor who has failed to fumigate.

However, when the big problem was approached in a systematic, thorough manner, the ultimate defeat of the squirrel was sounded. Under the plan of procedure, the enemy is given no rest until the dead numbers 100 per cent of the population. On one ranch alone an expenditure of less than \$500 is going to bring about a saving of fully \$14,000 a year.

There are a good many civic problems that can be solved by applying to them the rules that are making the squirrel campaign a success. For instance, take a rough street, one of those pesky thoroughfares that threatens the springs of every passing automobile, whose chuck-holes jolt every sick person into agonies and every well person into a state of grog. We have streets of that kind, too many of them. We recognize that we could get rid of them. We know that the money would be well spent, that in the end we would be money ahead. We know that co-operation and systematic effort will rid us of them.

To that and other similar problems let us apply the lessons that we are being taught by the squirrel extermination campaign. When we have a pest, let us get rid of it. When we have a nuisance, let us abate it. When we see that we need a civic improvement, let us proceed to get it.

THE NEW SALOON

Fourteen hundred Cleveland saloons will close their doors on the night of May 26, but more than half of them will reopen within a few days as new "social centers," and the interesting thing about it is that most of these centers will be run by brewery interests.

A leading brewer when interviewed upon the subject said the idea was to furnish some sort of social entertainment to take the place of the saloons, and the rooms will be available for religious meetings, business and political gatherings. Orchestras will be maintained in many of the larger places.

Far be it from any uplifting fellow-citizens to look a gift brewer in the mouth; but if they have not taken the financial possibilities in the soft-drink bar into their consideration we should be greatly surprised.

However, the money they make with their soft drinks cannot be grudged to them as was that obtained from sterner stuff; and it may be after they have seen, even the brewers will acknowledge that the man he has served with drink in years past is a better man without it than he was with it.

Another of the great engineering feats of this war will be bridging the gulf between the man who is working for a Peace of Europe and the man who is working for a piece of Europe.

Sweet Tooth Era

Redlands Facts

The people of the United States spent three fourths of a billion dollars for candy last year. If national prohibition ever gets completely established these figures will be easily doubled.

As a nation we are substituting caramels for cocktails and popcorn balls for highballs. Candy kettles and chocolate dipping tables are being installed in breweries and sweet-shops in saloons. The old-time tippler is turning to bonbons and the booze-fighter is nibbling at walnut creams. Indirectly this means a boom for the sugar beet industry, for the real estate dealer and farmer.

The victims of the sweet-tooth age will not have such evils to contend with as delirium tremens and cirrhosis of the liver and there will be more employment for labor.

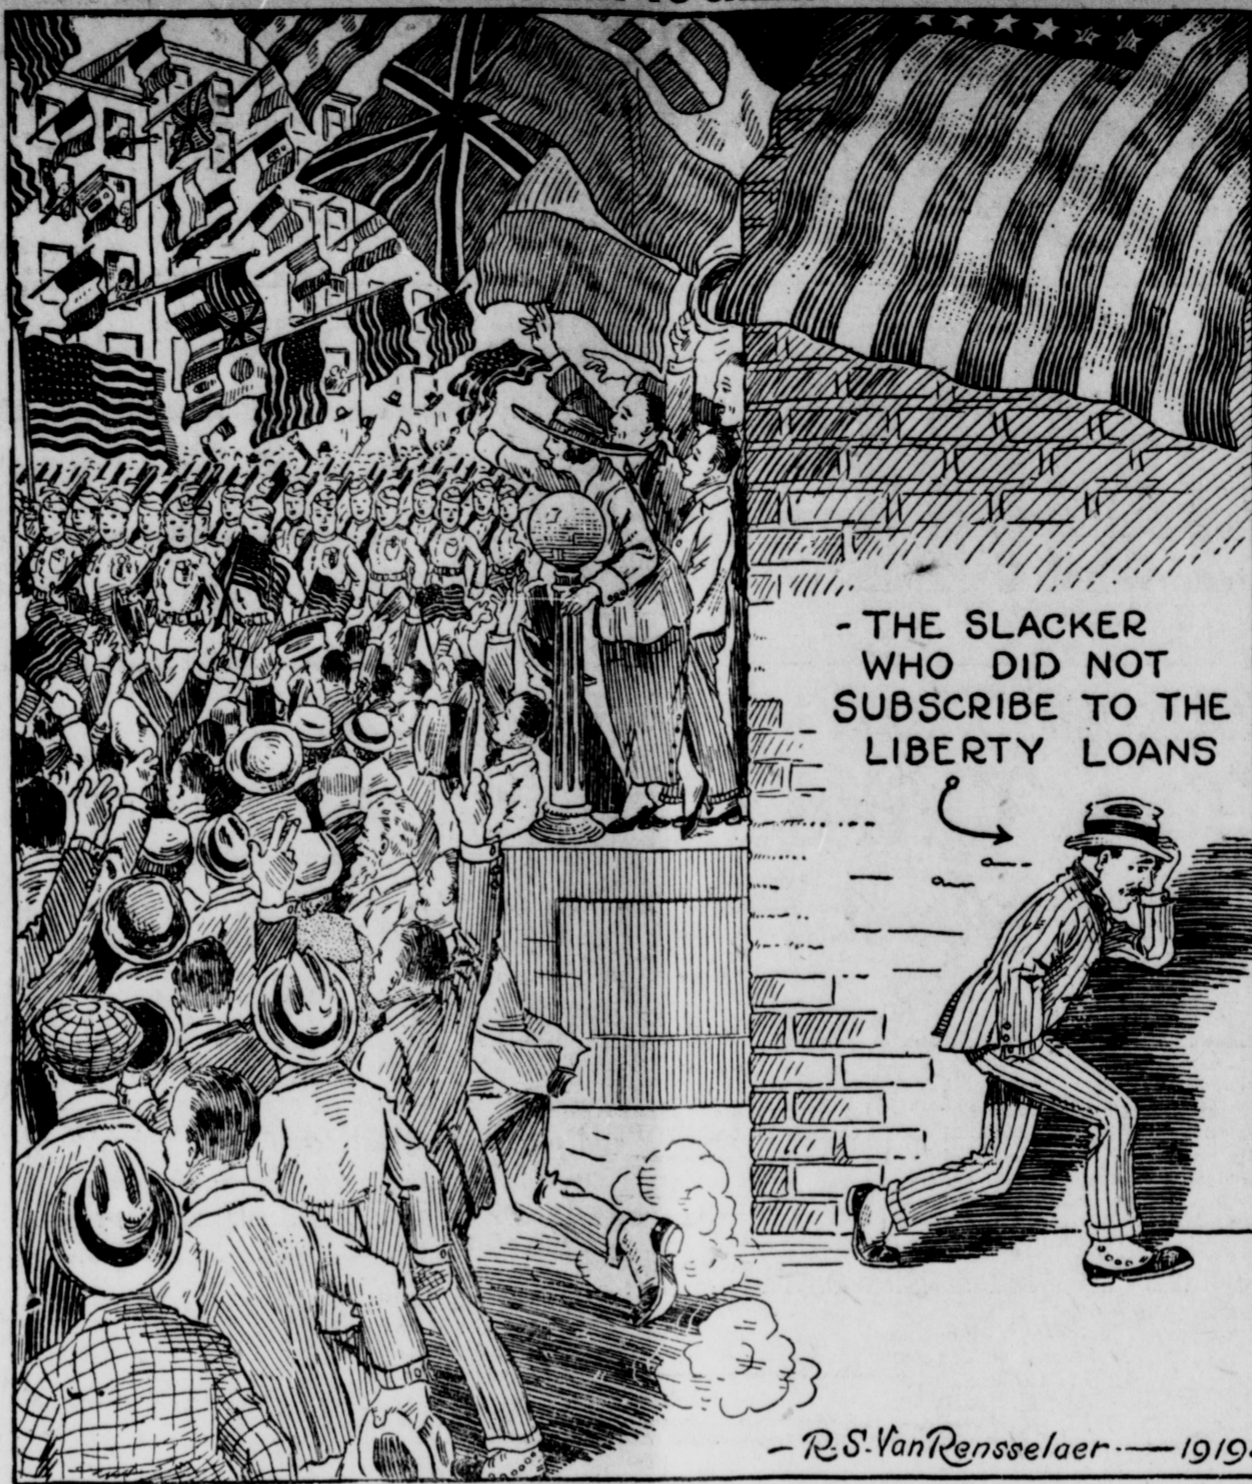

The west is fortunate in having a number of big sugar companies that are bending every effort to develop sugar beet raising and manufacture.

Surest Thing You Know

Placencia Courier

As the Courier has often stated, that which benefits any part of Orange county benefits the whole county, and a harbor at Newport will eventually be a good thing for Placencia. Let's vote the bonds.

THE RIGHT TO CHEER

A SHORTAGE IN BUILDING

After a thorough review of the building situation in the United States, the U. S. Department of Labor has come to the conclusion that there will be no material reduction in construction costs for several years, if at all. "This conclusion is inescapable," says a bulletin issued by the Information and Education Service of the Department of Labor.

This report is one that should have its effect upon a good many Orange county men and women who have been unable to convince themselves that now is a good time to build.

Orange county, and Santa Ana in particular, is in need of additional residences. There is a demand for every kind of a residence, from the humblest of cottages to the best that there is in the city.

The fact that many are thoroughly convinced that nothing is to be gained by delaying plans for building is shown by the awakened activities in building lines. But, if Santa Ana is to grow this year as it should grow, many more residences must be built, and the sooner construction starts the better it will be for the city itself and for those who propose building.

The Department of Labor says that as a result of the war there is a building deficiency in the north central states in the sum of \$1,511,200,000. A recent survey of building conditions in the North Atlantic states, made by the same department, placed the deficiency in that district at \$1,200,000,000.

This estimate was arrived at by a survey of the building permits issued in the principal cities in each state in pre-war years and during the war. The

total real estate valuation of these cities was compared with the total real estate valuation of the state in which they were located. By applying the accepted theory that the building permits of the cities will theory that the building permits of the cities will entire state as the real estate valuations of the cities bear to the real estate valuations of the state, the building deficiency for the latter was estimated with reasonable exactness.

In each of the states reported upon building interests and real estate boards report a shortage of residential property. Ohio and Illinois needs, also, apartment houses. There is a marked shortage in school buildings in all the states and most of the cities mentioned report a shortage of store and business quarters. A deficiency in workmen's dwellings is reported from Chicago, Detroit, Cleveland, Indianapolis, Cincinnati and Milwaukee.

This deficiency must be made up in addition to meeting the normal current needs in 1919. In view of this fact the Department of Labor's statement that the current year is likely to prove one of unprecedented building activity seems to be fully justified. The latest reports on building permits and contracts let indicate that building construction work the country over rapidly is getting back to pre-war figures. The new normal, however, will be far ahead of pre-war figures.

The rapidity with which building and construction work is reviving indicates very clearly that building interests are convinced there is to be no material reduction in construction costs for several years, if at all.

Worth While Verses

LOVE OF COUNTRY.

Breathes there a man with soul so dead,
Who never to himself hath said,
'This is my own, my native land?'
Whose heart has ne'er within him burned
As home his footsteps he hath turned
From wandering on a foreign strand?
If such there breathe, go, mark him well;
For him no minstrel raptures swell!
High though his titles, proud his name,
Boundless his wealth as wish can claim,
Despite those titles, power and pelf,
The wretch concentred all in self,
Living, shall forfeit fair renown,
And, doubly dying, shall go down
To the vile dust from whence he sprung,
Unwept, unhonored and unsung.

—Sir Walter Scott.

If Walter were here now he would say, "Buy a Bond."

OBSERVATIONS

You bought your safety on the installment plan. The last payment is due. It's a Victory Bond.

Hundatory is no longer synonymous with mandatory.

Why is it that if your wife plans a rose tea your neighbor cooks a boiled dinner and spoils the party?

Benevolent assimilation seems to be pretty hard on the Koreans.

It's reported Trotsky has ordered the Russian fleet to sea. We thought all Russia had been at sea for the last two years.—Newark News.

Bolshevism is Russia is giving way to a "new bourgeoisie," according to the director of the Moscow Red Cross committee. In other words, they have cleaned up enough money to start in business.

All their paragraphs are not devoted their time to war dope. A sentimental old editor up north has just remarked: "Love may be blind, but it looks out of some very bright eyes."

GROANS AND GRINS

Love's Strategy

Percival—"Gosh! Isn't it raining!"
Pansie—"Never mind, boysie; take father's umbrella, then perhaps he won't so much mind your coming back."—London Mail.

An Irish Proposal

Paddy slipped his arm around Biddy's waist, and asked, "Am I progressing?"
"Sure," replied Biddy, "you're houlding your own."—Edinburgh Scotsman.

Took Their Addresses

"I told him there were dozens of people in this town who had never heard of him."
"That took down his pride a bit, didn't it?"
"Not a bit. He asked their names and addresses and then set out to find them."

Speaking Acquaintance

"Willie," said the minister to a bright little fellow of 6, "do you know the Ten Commandments?"
"Not very well," replied the young-

ster. "I just know 'em by sight."—Answers, London.

Love's Strategy

Percival—"Gosh! Isn't it raining!"
Pansie—"Never mind, boysie; take father's umbrella, then perhaps he won't so much mind your coming back."—London Mail.

Free Excursion

BORING FOR OIL ADJOINING CULVER CITY
Free Excursion to Culver City Thursday, May 8.
From Santa Ana.

Meet us at the Pacific Electric depot at 9:30 a. m. and be our guest at a personally conducted excursion.

Free Ride and Free Lunch

STANDARD OIL CO is boring for oil adjoining CULVER CITY. Don't miss this opportunity. Millions have been made in your own county where oil was discovered.

Lots selling from \$650.00 up. All improvements in and paid for.

TERMS REASONABLE

Don't forget the date—THURSDAY, MAY 1ST, at 9:30 a. m. Special train leaves Pacific Electric station.

Harry H. Culver

Developer of Culver City.

R. A. Scott, Sales Manager

REGISTER WANT ADS. BRING QUICK RESULTS

AT CLOSE OF BUSINESS Saturday night, May 3rd, the banks of Southern California reported that only 30.73 per cent. of our allotment was subscribed. On a corresponding date in the Fourth Loan 51.60 per cent. was subscribed. In Los Angeles City last Saturday night we had subscribed only 20.02 per cent. These figures are practically complete.

The reason is—that subscribers are not buying in large enough amounts and that many of us are needlessly delaying in placing our subscriptions. We can all help the committee by subscribing at once as liberally as our resources permit.

DOWN TO HIS JOB

When Robinson Crusoe was wrecked all alone—
On an island far out in the sea.
He didn't sit down on the sands
With a groan
And murmur, "Poor, unlucky me!"
He started to work right away
With a will,
And builded the first bungalow;
And he fashioned some tools and
so managed to till
Some ground that a garden
might grow.

Whatever he needed he made for himself
From things that were lying at hand.
Umbrellas or shoes or a head bumping shelf
For the winter preserves he had canned.
Some people, thus stranded, would lie down and sob,
And presently perish, no doubt.
'Twas the way Mr. Crusoe got down to his job
That made him worth writing about.
—From the New York Times.

For Matrons and Patrons

Hermosa Chapter of the Eastern Star had planned a reception last night, honoring Mrs. Frank L. Worden, one of the past matrons of the chapter, but Mrs. Worden was obliged to leave here for the north on Saturday and the affair was turned into a reception for the matrons and patrons of 1919, the complimentary guests being present from Yorba Linda, Buena Park, Artesia, Fullerton and Anaheim. There were also present some of the matrons and patrons of 1918.

The regular initiatory work was put on during the meeting, the honored guests being invited to positions to the east.

The banquet room was prettily decorated with Cecile Brunner roses and light refreshments were served during a social period.

Altar Society Meets

Mrs. A. Hamann of Orange, will be hostess to St. Joseph's Altar Society and the ladies of the Catholic church Thursday afternoon. Those having no conveyance will meet at the rectory at 1:30 p. m. sharp.

Stereopticon Lecture

Mrs. Daniel Dundas of Riverside, formerly of this city, will give a very interesting stereopticon lecture Thursday evening at the First Methodist church.

Home From France

Frank B. Wright, who has been in France with the 316th Signal Battalion of the 91st Division, returned to the home of his mother, Dr. Mary E. Wright, on North Ross street on Sunday. His wife has made her home with Dr. Wright during her husband's absence.

Wright drove a motor supply truck along the front line during the drive in the Argonne forest, Audenarde and into Belgium, and was cited for bravery for driving in the midst of shell bombardment both from land and air. He made his home with his uncle, F. B. Browning, for some time, and attended Orange County Business College, so has many friends here to welcome him back. He expects to settle here.

Dr. Wright has two sons still in France, one working as a laboratory specialist in a base hospital at Toul, the other, an engineer at St. Nazaire. The brothers had a reunion in France and visited Paris together.

A Class Social

Mrs. and Mr. D. H. Leonard of 2215 North Broadway recently entertained the members of Judge Thomas' Bible class of the First Presbyterian church. About thirty members were present. Rev. Thomas E. Stevenson was a guest of the class.

After prayer and singing a short business meeting was held and a social hour enjoyed.

Ice cream and cake and delicious home-made candy were served by the hostess. At an early hour all departed for home, thanking Mr. and Mrs. Leonard for their gracious hospitality.

Ebelle Travel Section No. 2

Mrs. C. F. Crose, A. L. Dearing and A. D. Clayton entertained the Travel section, No. 2, at a one o'clock luncheon, Monday, at the home of Mrs. Crose.

Mrs. George Balderston had charge of the delightfully carried out program of a trip around the world, which be "America" and finished with "Home,

LEMON JUICE

FOR FRECKLES

Girls! Make beauty lotion for a few cents—Try It!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and rosy-white the skin becomes. Yes! It is harmless and never irritates.—Adv.

News Briefs of City and County

William P. Webb has reopened his law office at Anaheim which he closed when called into the service in September, 1917. He was nearly eight months under fire in the 91st Division and arrived home only a few days ago.

Among the numerous guests who had their Sunday Dinner at the Modjeska Inn were Mr. James Irvine, San Francisco, and Mr. J. Stew Ballard, Oakland. Mr. Irvine had not seen Mme. Modjeska's home for some time, and was very favorably impressed with the improvements that have been made. Outside of regular guests Modjeska Inn had 150 visitors to the home and the grounds last Sunday.

MARRIAGE LICENSES

IN SANTA ANA

DEATHS

COBAU—In Santa Ana, May 5, 1919, David Cobau, aged 70 years. Mr. Cobau was well known here and lived at Tustin for many years.

Services will be at Mills & Winbigler's Mission Funeral Home tomorrow (Wednesday), May 7th, at 2:30. Interment in Fairhaven cemetery will be under auspices of the Masonic Lodge.

WISEMAN—At Santa Ana, Cal., May 5, 1919, Dr. Thomas Preston Wiseman, aged 74 years, at his home on West Fifth street.

The remains are being held at Smith & Tuthill's chapel until the arrival of a daughter from Missouri.

PERSONALS

Chas. Rush, wife and daughter, of Minturn, Colo., were guests yesterday at the home of Leroy Burdick. Mr. Rush is an engineer, and he was one of the active supporters of Mr. Burdick when the latter was railroad Y. M. C. A. secretary at Minturn. Mrs. Rush and daughter will remain in Southern California indefinitely.

Lieut. Geo. Gowan, who is in the air service, is here on furlough from Mitchell field, Long Island, on a visit to his wife, who has been at the home of her parents, Mr. and Mrs. E. A. Wiekhorst, on East First street, for several months.

Miss Mary E. Hamaker went to Los Angeles this morning for a few days' visit.

John A. Henderson, Sr., left this morning for a trip east. He will visit relatives in Colorado and Ohio, Cleveland, O., being the farthest point east, where he will visit a son.

Mrs. P. A. Robinson spent today in Los Angeles. Adrian Tallman, formerly a baker for W. D. Baker, has enlisted in the U. S. Navy as a landsman baker for four years. He leaves Friday for San Francisco.

Mr. and Mrs. George W. Young and Mrs. Horace Fine motored to Los Angeles today.

Mrs. Horace McPhee was here from Santa Paula yesterday to attend the funeral of Mrs. J. P. Gutzweller.

Louis Robinson of Trabuco made a trip to Los Angeles today. His father, W. K. Robinson, accompanied him to this city to spend the day.

HENDERSON CORSETS

The present styles of gowns demand unusual care in corseting, for it must be remembered that if the new dress is to look its best, it must be worn over a well fitted corset.

MILLED IN CALIFORNIA

MADE IN CALIFORNIA WEEK IS OBSERVED
FEDERAL MEDIATOR IN L. A. BAKERS' STRIKE

SAN FRANCISCO, May 6.—This is "Made in California Week." Merchants in California's fifty-eight counties joined in boosting their home state today, following a proclamation issued last week by Governor Stephens. Special attention is called in window displays to "home products." The "Made in California Week" is established on the following:

The greater the consumption of California products the greater the use of raw materials and natural resources of the state.

By Californians purchasing the articles made in this state, our agriculturists will find greater market for their products.

The establishment of manufacturing plants throughout the state depends on the support given the industries within the state.

In his statement Governor Stephens declares that "the development of California is as yet only in the beginning and it is our duty to encourage and assist the development in every way."

San Francisco stores today displayed in their windows every article and produce of California industry calling to the attention of prospective purchasers the fact that the articles are "home products."

85,000 WORKERS STRIKE
RIO JANERO, May 6.—Seventy thousand factory workers are on strike at Sao Paulo and 15,000 at Santos. No disturbances have been reported.

Home-made candies, fresh every day. Nougats, fudges, caramels and brittles. Lion Candy Kitchen, 113 West Fourth.

Newport Hotel, on ocean front.

MEXICAN SCHOOL SITES BOUGHT BY BOARD
COUNTY HARBOR ENDORSED BY COUNCIL

Two Locations Secured For Buildings to Be Erected This Summer
Five Trustees Vote In Affirmative on Motion to Approve Issue

The problem of the city Board of Education in handling the Mexican school children of this city by instituting special schools for them has been settled. The board has just completed negotiations for the purchase of two sites and new school buildings will be erected on each and ready for opening at the commencement of the next term.

A lot 156x126 has been bought at the corner of Stafford and Logan, the property having been bought from Mrs. Helen Keller. A three-room school house will be built there.

The other location is a lot 125x150 at the northeast corner of Second and Santa Fe streets—just east of the Santa Fe tracks, on Second. Here two rooms will be built.

These locations have been selected because of their proximity to the large Mexican settlements and will be of great convenience to the children of the race.

The benefit of public schooling was amply illustrated yesterday and Sunday in the parades of Mexicans in celebration of Mexican Independence day. There were many children in line. They were neat and clean and behaved themselves nicely.

Yesterday the teachers who are in charge of the Mexican school on Church street visited Omelia Mexican school in Los Angeles. No children appeared at the school here yesterday because of the Independence day celebration and the teachers embraced the opportunity to visit the Los Angeles school.

The need of more room for the Mexican children has been proven the past year, with the attendance of 175 children and six teachers trying to get by with the three rooms at their disposal in the building on Church street.

Many things that should be taught, and are necessary to the Mexican people, have been set aside on account of the lack of equipment and room.

In Omelia school visited yesterday the teachers found classes in cooking, sewing, weaving, washing and ironing, wood work, housekeeping and shoe repairing—the children being taught to do these things in the superior American way.

The fruits of these educational branches are taken into the homes and the parents profit by them.

"Why can't our new school be begun right, and with the proper equipment?" said one today who is deeply interested in the progress of the Mexican children. "Why not have our new school year start with the spirit of bettering Santa Ana?"

At Omelia school, penny lunches were served by the girls at one period. In the afternoon other girls cleaned kitchen, washed towels and linen and still others ironed, etc. These girls take a pride in their own homes.

Economy and self-reliance are taught. For instance, a boy learning to repair shoes, can help take care of the footwear of the family—and the family usually is a large one.

If one of these boys at home finds a pair of shoes with good uppers and worn-out sole, or a pair with worn uppers and good soles, he reclaims one pair of good shoes from two pairs that would go to waste but for his training.

One of the most interesting and profitable things the teachers saw was the weaving of rag rugs on looms. Some very beautiful and artistic designs were developed. The rugs go into the homes of the Mexicans.

Eight-Hour Day, \$25 Month Pay Increase Given Express Men

A new sign has just made its appearance in the American Railway Express office at 418 North Main street, saying the office hours of the company are now 8 a. m. to 5 p. m. and everybody's happy.

The long-fought-for eight-hour day has been granted all employees of the merged express company, according to word received yesterday by Local Agent J. T. Carter, and the old hours of "7 to 6" are no longer in vogue. Every employee of the company is also granted a \$25 a month increase in pay, retroactive to January 1, and this helps some, affecting five express employees in Santa Ana. Another new ruling is that women employees of the company get the same wages as men when doing the same work.

FRESNO ROAD BOND ELECTION
FRESNO, Cal., May 6.—The question of constructing 288 miles of county highway at the cost of \$1,800,000 will be decided today by Fresno county citizens in today's good roads bond election. The election was set several months ago by the county supervisors.

GARY RIOTERS SENTENCED
GARY, Ind., May 6.—Sentences of from \$20 fine to \$250 and six months in jail were being served today by five of the 16 men arrested in the radical riots here Sunday. Trial of the other eleven was postponed to Friday.

If you care for health and sturdy vigor, you'll care for **GrapeNuts** a superb wheat and barley food Delicious!

ALLEGED SLAYERS OF WOMAN ARE GUARDED

GREENSBURG, Pa., May 6.—An entire troop of state constabulary, reinforced by a score of volunteers, this morning surrounded the barracks where James Crawford, alleged to have confessed to the brutal murder of Emma Austraw, Latrobe school teacher, and an alleged accomplice, John Ray, 17, are being guarded from lynching at the hands of angry farmers and townspeople.

News of the arrest of the alleged slayers has aroused the entire countryside. Angry mobs are said to be assembling, determined to lynch the prisoners "at any cost."

Let's plant a little seed there and see it grow."

THREE TIMES A WEEK FOR THREE WEEKS

After the long winter months, too much rich food and too little exercise, practically everyone feels the necessity for a good Spring Tonic and Blood Purifier. The very best spring medicine you can take is the king of tonic laxatives—

CELERY KING

Three times a week for three weeks, brew a cup of this purely vegetable laxative tea and drink it just before retiring. Gently, yet effectively, it will drive out all impurities and not only make you feel better, but look better, right away, giving you a sweet breath, clear skin and a healthy appetite.

STREET CAR TRACKS

It is easy and inexpensive to have nice, soft hair and lots of it. Just get a small bottle of Knowlton's Danderine now for a few cents—all drug stores recommend it—apply a little as directed and within ten minutes there will be an appearance of abundance, freshness, fluffiness and an incomparable gloss and lustre, and try as you will you cannot find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see new hair—fine and downy at first—yes—but really new hair—sprouting out all over your scalp—Danderine is, we believe, the only sure hair grower, destroyer of dandruff and cure for itchy scalp and it never fails to stop falling hair at once.

If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderine and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this.—Adv.

REDONDO WANTS 1921 G. A. R. ENCAMPMENT

The city of Redondo Beach wants the G. A. R. departmental encampment in 1921 and is starting an advertising bombardment with this end in view. Word from the beach town is to the effect that the city trustees and Chamber of Commerce there have secured the Rutgers apartments, corner of Fourth and Spurgeon streets, as their headquarters, from which place will be conducted a campaign for securing the encampment in 1921, when it will next come to Southern California.

HARD WORKING WOMAN
Knows From Experience That Nothing Equals Vinol to Create Strength

Holmdel, N. J.—"I live on a farm and am a hard working woman and for weak, rundown, overworked conditions have found nothing that will create an appetite, build me up and make me strong equal to Vinol."—Mrs. Thomas Ellis.

The reason we recommend Vinol for such conditions is because it is a constitutional remedy and all of its ingredients are printed on each package which will prove that it is a safe and valuable remedy to create strength for weak, rundown, overworked men, women and children.

Rowley Drug Co. and druggists everywhere.—Adv.

News from Orange County Towns

GOOD CATCHES AT HUNTINGTON BEACH

HUNTINGTON BEACH, May 6.—There was a large crowd at the beach Sunday to enjoy the concert given by the municipal band in the afternoon. While the band was playing Bob Hazzard was the lucky one to land a three-pound corbina close in, the only one caught there during the day. Many good catches are reported and Saturday night some boys from the country landed a large gunny sack full of grunion along the beach toward Bolsa Chica.

Sunday some of the fishermen took a hike to Trabuco canyon for trout, among them being Tom Anderson, Roy Labadie, Joe Anderson, F. H. Ferris and Bob Graham.

The report comes back that there is not much water in that canyon and so not many fish. Five or six was about the limit and all small ones.

HARPER HAPPENINGS

HARPER, May 6.—Will Stearns, a long-time resident of Harper, has been invited to the Imperial Valley to raise alfalfa on the Binkley ranch. He will move down there soon.

Mr. Mellett and C. A. Williamson started Tuesday for Ventura county and other sections to promote the Mellett patent fumigation box. They will go north as far as Tulare county.

The Ladies' Friday Afternoon Club at its last meeting took in the following new members: Mrs. S. W. Clark, Mrs. Harry Clark, Miss Minnie Prinslow and Hoffman. The following officers were elected: President, Mrs. C. A. Wilkinson; vice-president, Mrs. A. A. Dodge; secretary, Mrs. Harry Clark; treasurer, Miss Minnie Prinslow. The meeting was held at Mrs. E. Goepfer's with a large attendance.

The Newport Mesa Irrigation Company this week has a big machine trench digger at work making a ditch for the main pipe line from the reservoir to the well, about two miles away. Approximately \$10,000 worth of redwood pipe of twelve-inch bore has been purchased. The system will be well equipped with modern machinery and a first-class service instituted.

The Friday Afternoon Club gave a farewell surprise party on Monday night to Mr. and Mrs. E. Goepfer on the eve of their moving to Santa Ana to occupy their new home which they secured in a trade with Ed Bradley, who will move his family to the former Goepfer home this week. There were over thirty of the neighbors present and a real enjoyable time was the result. Felicitous remarks were made by Mrs. M. B. Armstrong, Mrs. M. C. Lincoln, Frank L. Dodge and George Huntington. Mr. Goepfer got out his violin and played old-time dance tunes while many danced the old quadrille waltz and two-step. Mr. Ed Bradley and Mr. Harold Bradley and their families were neighbors in Santa Ana, but not relatives. Strange to say, both families moved to the Harper district on the same day and located within a stone's throw of each other.

ARGENTINE ORGANIZES TO PREVENT STRIKES

BUENOS AIRES, May 6.—Representatives of all lines of business in Argentina, including Argentinians and foreigners, have effected an organization for defense against the present epidemic of strikes. In the future all concerns engaged in similar business will act jointly in the event any of their members are involved in a strike.

ORANGE PERSONALS AND NEWS NOTES

ORANGE, May 6.—Mrs. E. S. Reavis entertained a group of friends at the Reavis home on South Cambridge street Saturday evening to celebrate the birthday anniversary of her daughter, Miss Florence Reavis.

Dancing and games were the diversions of a jolly evening. Fruit punch and a dainty assortment of cakes were served.

Guests from Orange were Miss Minnie Palmer, Mr. Brown McPherson, Mr. Walter Glesner. Other guests were Miss Pauline Higgins, Miss Gladys Fitz, Mr. and Mrs. Marion Dillard, Mr. Carl Dillard, Mr. James Shoemaker, Mr. Estell Shoemaker, all from Pasadena. The Pasadena folks remained at the Reavis home over Sunday.

Donald S. Hopkins, who served overseas as dispatcher for the 315 Train headquarters was a guest at the home of Mr. and Mrs. C. W. Meadows on North Grand street Sunday. He is a brother of Mrs. Meadows. Other guests at the Meadows home were Mr. and Mrs. S. M. Hopkins of San Pedro and Mr. and Mrs. C. C. Stewart of Santa Ana. Mr. and Mrs. S. M. Hopkins are Donald Hopkins' parents and Mrs. Stewart is his sister. Although Mr. Hopkins was in three battles he returned home unscathed.

Win. Strong Ganson, age 72 years, passed away Monday evening at his home at 152 North Grand street. He is an old Civil War veteran, who came here with his wife from San Diego last December. Funeral services were held today at 2 o'clock at the Ellis and Clark Chapel. The services were in charge of the Grand Army men.

The Methodist church reception which was to be held last Friday evening but was postponed on account of the Victory Loan program, will be held at the church this evening. This is one of the biggest social events of the year. Fifty new members, received within the past few months will be the guests of honor. An exceedingly good program has been planned.

Seventeen kiddies accompanied by their mothers were guests at the Owen Murray home in El Modena when Mrs. Murray entertained in honor of the fourth birthday anniversary of her daughter, Arden.

Mr. and Mrs. W. A. White who have been visiting in Orange with Mrs. White's parents, Mr. and Mrs. C. A. Wood, left yesterday morning for their home in Needles.

Ray Catherman underwent an operation for appendicitis at the Anaheim sanitarium yesterday morning.

LAGUNA BEACH

LAGUNA BEACH, May 6.—Miss Margaret Hetzel, of Riverside, spent the week-end in her cottage on the cliffs. Miss Hetzel has just announced her coming marriage to the Rev. William Henry White, of Rochester, N. Y. The wedding will not occur until July. It will take place at the home of Miss Hetzel's sister in New Jersey. Miss Hetzel is a member of the faculty of the Girl's High School, at Riverside. Mr. White has been spending the winter in California. At some future date the couple expect to return to the west and will retain the Laguna cottage.

Mr. and Mrs. Lester McKnight and their two little daughters, Julia and Madeline, spent the week-end in their beach cottage.

Mr. and Mrs. Charles McKeen, of Capistrano, drove over to Laguna Sunday, and took Mr. Conway Griffith back with them for a short visit. The small Durgin cottage has been rented to Mr. and Mrs. W. A. Griffith of Lawrence, Kansas, for June 20th to August 20. Mr. and Mrs. Griffith and their family spent last summer in Laguna and the winter in San Diego. In August they will return to

SANTA ANA D. A. R. GUESTS AT LAGUNA

LAGUNA BEACH, May 6.—Miss Katherine Edwards of Santa Ana was hostess to the Santa Ana Chapter of the Daughters of the Revolution, at her Laguna Beach cottage Saturday. Miss Edwards and her guests motored to Laguna in the morning and after a delicious "surprise" luncheon held their business meeting.

New officers were elected for the year and two very interesting five-minute papers were read; one, "General Poch" by Mrs. Grace Holmes Wright, and the other a tribute to President Wilson, by Mrs. L. K. Strong.

After the program was brought to a close, the ladies visited the Laguna Beach Art Gallery. When their visit there ended, the lateness of the hour compelled them to leave the beach without visiting Mr. Griffith's studio as they had planned. That visit they hope to make another time.

Those present at the luncheon and afternoon affair were: Mrs. L. K. Strong, Mrs. J. N. Bartholomew, Mrs. E. M. Blake, Mrs. A. J. Crookshank, Miss Edwards, Mrs. E. G. Holmes, Miss A. O'Brien, Mrs. J. J. Pyle, Mrs. C. F. Smith and sister, Mrs. G. H. Wright, Mrs. Otis Jones, Mrs. C. R. Sumner, Mrs. Gray, and Mrs. M. A. Edwards and Miss Thacker, a guest of Mrs. Strong.

One extremely interesting fact that was brought up in the afternoon was that Mrs. J. J. Pyle has made and sent to Belgium more than 600 pairs of velvet booties for the Belgian babies. Queen Elizabeth of Belgium acknowledged them by a letter.

Lawrence, where Mr. Griffith is a member of the college faculty. He is head of the Art department.

Mr. and Mrs. Carl J. Kadau, and Dr. and Mrs. A. H. Tyrrell of Orange and Dr. Tyrrell's mother, who is out from Nebraska visiting her son, were in Laguna over Saturday and Sunday. They had accommodations at Mrs. Rhoades.

J. N. Isch, Richard Jackson and Oscar Farman, spent Saturday night at Serra hunting grunion. Their united efforts were rewarded with about 50 pounds of the little fish.

Mr. and Mrs. E. E. Vincent of Santa Ana were in Laguna over Sunday. They occupied their cottage on the bluff.

Mr. Walter K. Shaw, of Duarte, spent the week-end in his new cottage on the McKnight subdivision.

Mr. and Mrs. Max Roland of Los Angeles are spending this week at the Laguna Beach Hotel.

EL TORO NOTES

EL TORO, May 6.—Mr. and Mrs. Walter Cornelius of Irvine spent Sunday with Mrs. Cornelius' mother, Mrs. Nellie Munger.

Mr. and Mrs. E. C. Perry of Fullerton visited at Mr. and Mrs. P. Olds recently.

A May Day picnic was greatly enjoyed by the school children as well as a number of older people who went by wagon to Trabuco Canyon for the day. Lunch was spread under the large sycamore trees at noon.

Miss Louise Stevenson left Sunday for two weeks' visit to Glen Ivy.

Miss Esther Munger of Los Angeles visited home folks recently.

Mrs. Belle Thompson and children of Santa Ana spent Sunday in El Toro.

Mrs. Leah Pesterfield who has been ill for a great time is greatly improved.

Geo. Huddy has sold his ranch to Walter Cornelius and will buy a home in Santa Ana and move to it at an early date. Mr. and Mrs. Huddy will be greatly missed, having been residents at this place for the past twenty-six years.

United States tires are the best tires. Royal Cords are not an experiment but a proven fact. Sold by Jack Olivari, southeast corner First and Main. Guaranteed vulcanizing and re-treading.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets.

The secret of keeping young is to feel young — to do this you must watch your liver and bowels — there's no need of having a sallow complexion — dark rings under your eyes — pimples — a bilious look in your face — dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities.

You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.

J. R. GARDINER INVENTS ORCHARD CULTIVATOR

A new orchard cultivator, designed especially for orchard work, has been invented by John R. Gardiner of Fullerton. The machine is built close to the ground, has light draft and spring steel shanks, and is easy to operate. The cultivator is adapted to fit the Gardiner Furrower, which is another recent invention of Mr. Gardiner's. The implement is also easy to attach, requiring but 15 minutes to attach or detach. By the new invention, Mr. Gardiner is enabled to furnish the orchardist a furrower which retails regularly for \$70 and a cultivator which ordinarily retails for \$100, at a saving of \$35.

You will want to vote on the \$500,000 county harbor bonds June 10, so

Register Now

unless you have already registered in the precinct where you now live since January 1, 1918.

Returned Soldiers, Sailors

and all new residents should go to the county clerk's office and register on or before May 10, when registration for the bond election closes. Then they can express their opinion upon the great question of whether or not Orange County wants a commercial harbor.

MULES

We have purchased all the rental mules owned by C. M. McCain, which we consider the best bunch of mules in the State of California. All mare mules, good age, perfectly mated in pairs, gentle and well broke.

These mules have been personally selected by Mr. McCain for rental purposes, and have never been offered for sale. On account of our purchase of the business from Mr. McCain we have placed on the market all these high-quality mules.

As these mules have all been rented out, they are naturally broke in pairs and gaited together. We believe this is an opportunity to get what we consider a REAL MATCHED SPAN OF MULES.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

THREE STATES PLAN FOR JUNE PICNICS

Three more state picnics have been announced. Hardly a week goes by without some kind of a state picnic being held at Sycamore Grove, Los Angeles. The three latest announcements follow:

Former residents of the state of Oregon are invited to unite in a happy picnic reunion on Saturday, May 10, 1919, in Sycamore Grove, Los Angeles. This invitation will go far and wide and includes all from every county of the old home state. There will be county registers, hot coffee free to those who buy the souvenir badge. All must bring basket dinners. Owing to the weather last Saturday, the Arkansas picnic has been postponed to Saturday, June 14, and will be held then in Sycamore Grove, Los Angeles, all day with basket dinners at noon. All the features planned for the former date will be carried out. County registers open all day; hot coffee; souvenir badges.

All the former residents of Kentucky are included in the open invitation to the annual picnic reunion to be held in Sycamore Grove, Los Angeles, all day Saturday, May 19. President Redwine announces county headquarters and open registers all day, basket dinners at noon, hot coffee, souvenir badges. J. A. Matthews, just home from the battlefield, will tell of his experiences "over there."

SAYS THAT "JIFFY-JELL" BARS GLUTTONY

Alfred W. McCann, the food expert, writing in the New York Globe, says that the greatest virtue of Jiffy-Jell is as a barrier to gluttony.

The average person greatly over-eats. One follows a big dinner with a hearty dessert, too tempting to refuse. And that is often the final straw. Jiffy-Jell supplies a dessert which is healthful and enticing, yet it does not tax the stomach. The body of the dessert is formed by a little gelatine, sweetened and acidulated, dissolved in a pint of water. The flavor is a fruit-juice essence made from the fruit itself.

A few years ago a large wholesale grocery house in New York discontinued the sale of all so-called fruit flavors save lemon and orange. The reason given was that other fruit flavors could not be manufactured, so synthetic ethers, etc., had to be substituted. But the makers of Jiffy-Jell have found a way to supply these true-fruit flavors. They make them by condensing fruit juice. Then they seal them in glass vials—a bottle in each package—so they keep.

Thus Jiffy-Jell is bringing to millions a true-fruit dinner-ender. It supplies the delights and the healthfulness of fruit. And, like fruit, it does not tax an overloaded stomach. Mr. McCann says that Jiffy-Jell has done more to put Waukesha on the map than all the Waukesha Spring water that has been bottled for a century.

DENY PRINCESS TO WED

LONDON, May 6.—Official denial was made here today of a report published by the Express that Princess Mary, only daughter of King George and Queen Mary, is engaged to the Earl of Dalkeith, 25, a lieutenant in the grenadier guards.

SALVATION ARMY IS TO HAVE FORD AUTO

At Least, Fund Is Started at Factory With a Donation of \$50

The Salvation Army is to have a Ford automobile. If the proprietor and employees of Kaufmann's spotlight factory on East First street have their way about it.

In the work of the Salvation Army here, Captain F. Schute and his assistants have a lot of travelling to do. Some of that is done on foot and some of it in a delivery wagon and more yet on a bicycle. There seems to be no question but what a Ford car would be of great assistance in the work, and would enable the workers to cover more ground and a wider field.

The plan to secure a machine for the use of the Salvation Army here was conceived at the Kaufmann factory, and a collection was soon taken up. It totaled \$50. Others who want to help in this work may send their donations to the Kaufmann plant.

Captain Schute has completed his report to the public for work done by the Salvation Army here for the months of March and April as follows:

March—No. beds supplied at 10 and 15c, 282; No. beds given, 125; meals supplied at 15c, 216; meals given, 212; garments given, 111; pairs of shoes given, 17; No. men supplied with employment, 48; women supplied with employment, 3.

April—No. beds supplied at 10 and 15c, 289; No. beds given, 104; meals supplied at 15c, 121; meals given, 144; garments given, 157; No. pair shoes given, 41; men supplied with employment, 61; women supplied with employment, 8; No. families supplied with bedding and household goods, 2; No. military men helped financially, 2; ex-prisoners helped financially, 1; No. families helped with groceries, 3.

SCIENCE CHURCH TO SELL ITS PROPERTY

In preparation for erecting a large modern church home, the Christian Science Society of Fullerton today requested court permission to sell property on Amerigo avenue, Fullerton, and a dwelling house on other property owned by the society to make room for the new structure. The request was made through Harris H. Hale, president of the association, and George S. Treher, secretary. Hearing of the petition is set for May 16 at 10 a. m.

SHANTUNG WILL GO TO CHINESE, SAYS MAKINO

PARIS, May 6.—Baron Makino, in a statement to the press, said it is Japan's policy to hand back the Shantung peninsula in full sovereignty to China, retaining only such economic privileges as were granted Germany, together with the right to establish a settlement under the usual conditions at Tsing Tao.

Regarding the Shantung railways, which become a joint Sino-Japan undertaking, Makino said special Chinese police, with Japanese instructors, will insure security of traffic.

STOCK MARKET CLOSED

NEW YORK, May 6.—The stock market was closed today on account of the parade of the 77th Division.

COURT HOUSE NEWS

ARREST MANY FOR MOTOR VIOLATIONS

Riding a motorcycle at breakneck speed appears to have been a hobby with D. Phillip of Orange for he was twice arrested for speeding. One time his speed was caught at 46 miles an hour and another time at 56 per. He is ordered to appear before Justice Cox on Wednesday, May 14.

Motorcops Ballard and Carr were busy people over the week-end, and many arrests for traffic violations were made. Several cut the corner at the La Habra boulevard intersection with the state highway, while some others were guilty of this offense at North Main street and the Orange boulevard. Others had glare lights, some no lights at all, and some had spotlights pointed too high.

Those who have just been arrested and cited to appear May 14, together with the offense charged, are as follows:

- R. H. Files, Riverside, glare lights.
- Floyd Harmon, Arcadia, spotlight.
- E. B. Ashcraft, Santa Barbara, lights.
- Ed Nelson, Tustin, glare lights.
- R. J. Chandler, Wilmington, lights.
- V. H. Chamberlin, S. A., no bike light.
- F. E. Halladay, Anaheim, cut corner.
- V. Emmett, Delhi, no bike light.
- E. A. Honey, Orange, cut corner.
- J. F. Ferrill, San Pedro, spotlight.
- D. C. Magis, Los Angeles, cut corner.
- L. V. Draper, Los Angeles, cut corner.
- G. L. Schneider, Los Angeles, cut corner.
- A. Blumberg, Los Angeles, cut corner.
- A. Thompson, Los Angeles, glare lights.
- Earnest Cady, Santa Ana, spotlight.
- R. M. Caldwell, Whittier, cut corner.
- F. W. Averill, Portland, Ore., speeding.
- H. H. Pessee, Delhi, glare lights.
- Homer Stillwell, Spring Valley, spotlight.
- C. G. Van Horn, Pasadena, no lights.
- F. D. Burnham, Pasadena, spotlight.
- F. G. Simmons, Whittier, glare lights.
- F. Gonzales, La Habra, cut corner.
- G. Herrero, Whittier, cut corner.
- H. G. Newton, Los Angeles, cut corner.
- J. L. Kline, Los Angeles, cut corner.
- C. A. St. Peter, San Bernardino, spotlight.
- J. Gazioli, San Diego, spotlight.
- G. W. Spurr, Los Angeles, cut corner.
- E. R. Fried, Los Angeles, glare lights.
- B. J. Davis, Los Angeles, spotlight.
- F. S. Brady, Venice, no lights.
- O. Keithly, Los Angeles, spotlight.

SOLDIERS WIN FIRST MILEAGE FIGHT STEP

WASHINGTON, May 6.—War department heads today were under order of the district supreme court to show why discharged soldiers should not be allowed mileage home at the rate of five cents per mile instead of three and one-half.

Issuance of the order by Chief Justice McCoys was the first victory for the Private Soldier and Sailors' Legion in its fight to force the government to pay the men about \$40,000,000 additional mileage. The last congress granted five cents mileage to discharged soldiers and sailors.

The war department said it intended to pay this difference as rapidly as possible.

Moving east, one door, on June 1. More business, larger 1/4, better service. Main Shoe Hospital.

JAPS WILL OPERATE SAN FRANCISCO CABLE

TOKIO, May 6.—Kakichi Uchida, former vice minister of communications, today announced he is planning the organization of the Japanese-American Cable Company to operate a cable between San Francisco, Japan and other Oriental points. He plans a 50,000,000 yen capitalization. Strong support of the enterprise has been pledged by both American and Japanese business men, according to Uchida. There has been extensive congestion of late in cable traffic to America.

Have you tried our Cottage Cheese? Fresh every day. Excelsior Dairy Co. Phone 237.

WAR VETERANS HOLD WHEEL CHAIR RACE

LOS ANGELES, May 6.—Three hundred delegates to the state encampment of the Spanish War Veterans today watched a wheel-chair race staged by men who fought in the Civil War at the Soldier Home at Sawtelle.

The Spanish War Veterans are holding their annual convention here this week. Election of officers takes place tomorrow.

Reports of officers showed more than 30 per cent of the membership saw service in the world war.

CORONADO WOMAN BANKRUPT

LOS ANGELES, May 6.—Mrs. Kate W. Hizar of Coronado has filed a petition in bankruptcy in the district court here setting her liabilities at \$10,854.34 and her assets at \$8000.

ITALY IS NOT IN TREATY

PARIS, May 6.—Supporting the American report that Italy was not invited to return to the peace conference it was learned today that the final draft of the treaty did not contain Italy's name and it was necessary to write it in.

COURTHOUSE NOTES

Interlocutory decrees of divorce have been granted to Sadie Appleby from Tracy L. Appleby, and to Anna Hartman from Dwight E. Hartman. J. Howard Turner, W. F. Menton and J. N. Anderson have appraised the estate of Lucio Yorba de Preciado, deceased, at \$5000.

J. N. Anderson is appointed sole appraiser of the estate of Anna Pettz, deceased.

Trial of the action of Winbigger vs. Shattuck, in progress yesterday, was continued to next Friday afternoon.

Judgment in favor of the defendant has been entered in the suit of Chas. F. Howe vs. C. W. Vincent.

REGISTRATION OF LAND TITLE SOUGHT

Petition for the registration of title under the state land title act, commonly known as the Torrens law, has just been filed in the Superior court by Attorneys Bishop and Wellington for a large number of Fullerton property owners. It is said this is the first of several such petitions which it is planned to file during the next few weeks.

The present petitioners are: William Thomas Brown, Alice Beazley Brown, Louis Ames, Odrilla Frances Ames, the Brown and Hauser Company, a corporation, Henry John Burdort, Magdalena Burdort, Henry Burdort, Dorothea Burdort, Dietrich Vincent Burdort, Henry Clarence Cordes, Alma Katherine Cordes, Elmer Williams Dean, Mattie G. Dean, Henry Ephraim Durand, Anna Bailey Durand, Myra Cooper Hubbs, Edward William Hubbs, John Lund, Marshall Emma Elizabeth Marshall, Samuel Wesley Miller, Annie Henrietta Miller, Walter Franklin Morse, Nellie Olivia Morse, Sophie A. F. Rorden, Rebecca Bosche, Meta Rorden, Robert Francis Parker, Perl Parker, John Henry Pfenniger, James Alexander Schulte, Bertha Schulte, Edward Sell, Mathilda Sell, Samuel Bryant Stambaugh, Mary Della Stambaugh, Leland Boyd Steward, Agnes Isabel Steward, Marie Voklander, Lisbon Williams, Lee Utley, Maude Utley.

EL MODENA READY FOR PHONE BATTLE

EL MODENA, May 6.—That El Modena is ready to join heartily into the battle against the latest telephone rate raise and elimination of free toll zones was conclusively evident last night, at a meeting of the El Modena Farm Center. Many thought a good way would be to order all phones out in the county, while others were not in favor of this move except as a last resort. However, all showed a determination to carry on the fight, and it was declared every telephone in El Modena would go out if this move were generally determined upon.

H. B. Woodrough, Farm Bureau president, was on hand to tell of the fight now being made by telephone users of the county, and asked how many present would put \$2 into a fund to fight the latest move of the phone company, if the rest of the county would join in this plan. Every one of the 27 phone subscribers present and two who have no telephones answered "yes." Woodrough advocated raising a fund of \$10,000 to \$15,000 for the hiring of competent engineers and attorneys to carry the fight before the proper authorities, and this stand, according to President W. T. Chapman of the El Modena Center, was approved today by K. E. Watson, who was for years a telephone manager in Orange.

RATE FIXING POWER OF WILSON ATTACKED

WASHINGTON, May 6.—Contention that the president under the wire control act does not have power to set either interstate or state telephone rates, was made before the supreme court today by Fred Jackson, attorney for the State of Kansas. Other attorneys who argued before the court in the telephone case today limited their attacks on the rate-fixing power on the President and Postmaster General to the state features.

Nurses Recommend Cuticura Soap

It appeals to them because it is so pure and cleansing. It does much to keep the skin clear and healthy especially if assisted by touches of Cuticura Ointment to first signs of pimples, redness, roughness or chafing. Ideal for toilet uses.

Be sure to test the fascinating fragrance of Cuticura Soap on your skin. Soap, Ointment and Talcum 25c each every-where.

ANOTHER VICTORY FOR FINGERPRINTS

Another victory for the unbeatable fingerprint system of criminal identification was scored today when it was found that Rufino Rodriguez, alias Pedro Rodriguez, now in the county jail charged with a bicycle theft, is a parole violator from San Quentin prison.

Rodriguez's fingerprints were taken by L. F. Miller, in charge of the identification bureau of the sheriff's office, and a comparison of the record disclosed his identity. Rodriguez was arrested Nov. 18, 1915, the record showed, and was committed to state's prison for five years for burglary at Bolina. He was paroled on March 1, 1918, but violated the terms of his parole. When local officers and courts are through with him for the alleged bicycle theft, Rodriguez will be taken back to San Quentin to serve out the remainder of his five-year term remaining at the time of his parole.

WILLIAM FOX HELD TO ANSWER BY COX

William Fox, young ranch hand who wanted to get back to Texas so badly that he indulged in a fling at high finance, was in justice court today for his preliminary examination, and was held to answer to the superior court with bail fixed at \$1000. He declared he would plead guilty.

Fox, it is alleged, stole a gang plow from Ray H. Overacker, sold it to Ray Wardlow, then secured William Duncan to haul it to Olive, where he sold it again. With the money thus obtained he went to Los Angeles and was just purchasing a ticket to Texas when arrested. Messrs. Overacker, Wardlow, Duncan and Herbert Chesley were witnesses at the court session today.

Stop by at our underwear counter and examine the Fitrite vests we are showing. These are made so the straps can't slip off the shoulders and so the fabric hugs up securely under the arms, yet does not bind. The fabrics speak for themselves, the sizes are guaranteed correct, and the prices will surprise you. Look them over for real value.

Fitrite Ladies Union Suits

(Straps can't slip off the shoulders) Eliminate all the discomforts ordinarily found in the Union Suits. Fitrite cannot sag or gap—fits perfectly without binding anywhere. The smooth, light clinging garment provides the utmost protection, yet you never feel you are wearing it. Combine with these features the remarkable value found in every Fitrite garment, and you have the reason for its wonderful popularity.

Fitrite Union Suits

These come in low neck sleeveless, close fitting knee or umbrella knee, lace trimmed, fine weave with band or beading top. Sizes 34 to 44. Prices 50c, 65c, 75c, 85c and \$1.00.

Sleeveless Vests

In a wonderful assortment to select from, a garment that will please every one. Sizes from 34 to 44 at 25c, 35c, 45c, 50c, 65c, 75c.

Tape Top Vests

A fine Swiss ribbed garment that won't easily wear, and built for service. Sizes 34 to 38 at 35c. Extra sizes 45c.

Ribbon Top Vests

One of the most popular garments worn this season. Made of fine ribbed Male thread yarn and has only the ribbon straps over the shoulder. Sizes 34 to 38 at 50c.

Bodice Vests

Ladies' fine ribbed bodice vests, more popular this season than ever before, especially popular for evening wear, and to be used with sheer waists. Sizes 34 to 44. Prices 25c and 35c.

Children's Summer Underwear

We carry a full and complete line of Children's and Misses' garments in high neck, long sleeves, or low neck and sleeveless, with knee length pants to match. Also a full line of Union Suits in low neck and sleeveless. Sizes 2 to 16 years, at prices to suit every purse.

GENUINE KOVERALLS

We are headquarters for genuine Koveralls which fill every requirement for children's play and outing purposes. Sizes 1 to 8 years. Price, \$1.50 Suit.

Must Make Utility Connections Before Paving

MANY SQUIRRELS BEING KILLED IN COUNTY CAMPAIGN

Pest Cleared From 62,000 Acres By Poison Squad, Says Wardwell

In the campaign to kill all of the ground squirrels in Orange county, 62,000 acres have been cleared of the pest and 290,000 acres are still under treatment.

The benefits to be derived from the annihilation of the squirrel population of the county is recognized by all of the farmers, and C. W. Wardwell, the deputy county horticultural commissioner in charge of the extermination work, has had excellent co-operation throughout the county.

The campaigns on the Echenique, Forster, Whiting, Oyarzabal and Moulton ranches in the south end of the county are about completed. A large area of the O'Neill ranch has been covered. Poisoning is being done on the Irvine, Bixby and Kraemer ranches.

In this work, poisoned barley has been used. Occasionally the poison crew comes across some tough customer among the squirrels who seems to be immune.

"I watched one of those renegades," said Wardwell, "and he took the poisoned barley just as fast as he could find it. I then tried poisoned black-eye beans, with a stiff dose of strychnine in each bean. Later I found him dead."

On Moulton Ranch Wardwell has made some calculations concerning the work that has been done on the L. F. Moulton ranch at El Toro. On that ranch 22,000 acres were covered. It took three men nineteen days to go over the ground. Twenty sacks of poisoned barley were scattered. The men found that a pound of barley was sufficient to scatter at thirty holes.

In those nineteen days the three men placed poison at 66,000 holes, an average of three holes to the acre. It is taken for granted, for the purposes of calculation, that one-third of the holes were unoccupied.

On the first time over the ground, the poisoners got 90 per cent of the squirrels, and on the second time over 75 per cent of the remainder were killed. The few that are left are what Wardwell calls renegades, and unusual means must be employed to get them. Sometimes hulled barley does the work, sometimes a black-eye bean proves to be the charm. There is not let-up until the area under treatment is absolutely cleared of the pest.

On the Moulton ranch 13,767 acres of pasture land were treated, and 7601 acres of farm land.

Saving in Cash

"By careful estimate," said Wardwell today, "we figure that a squirrel on pasture land does 16 cents worth of damage a year, and that a squirrel on farm land gets away with \$1.25 worth of wheat, barley or beans. Two hundred squirrels will eat enough grass and destroy enough productive surface to feed a steer."

"Using those figures, the killing of the squirrels on the Moulton ranch is worth \$1405 a year to the pasture land and \$3505 to the farming land."

The killing of the squirrels is bringing starvation to coyotes, and those prowlers of waste places will have to hustle for a living from now on. Undoubtedly quail will suffer.

Ordinarily at this time of year, coyotes in the Orange county foothills are sleek and fat. They have no difficulty in getting plenty of young squirrels to eat. A few days ago John Forster of San Juan Capistrano found the carcasses of two coyotes. He says that all of the coyotes he has seen lately are extremely thin. These two looked as though they were more than half starved. Evidently they had eaten poisoned squirrels and had been killed. Forster also found an eagle that he thinks ate poisoned squirrel.

Some Valid Reasons You Can Give For Not Buying Bond

SOME valid reasons you can offer for not subscribing to the Victory Liberty Loan:

You are only a fraud and all your apparent Americanism is a sham to cover up a selfish, unpatriotic, short-sighted character.

You think it is illegal and immoral to accept an unusual and attractive rate of interest offered by your Government in return for a needed, short-time loan.

You don't believe in the best security in the world.

You are convinced that just because American boys were foolishly enough to go to France and be killed, maimed and crippled is no reason why you should be equally foolish and waste your good money on a Federal investment.

BICYCLE RACES WILL INCLUDE BOYS' EVENT

Riders Under 14 to Go Six Miles, the Others Take Long Course

The bicycle races scheduled by local dealers to take place on May 31 will be open to boys under 14 years of age as well as to riders over that age.

The race for the boys will be only six miles in length, while that for the older group will be over the fifteen-mile course through Orange, McPherson, Tustin, Dyer and back to Santa Ana. Each event will have handicap arrangements.

There have been several promising riders spring up since the last race and the outlook is that Bob Gerwing, who holds the record for the course, will have to leave to it he wants to hold his honors. Bob Gerwing is also holder of the American road record for fifteen miles and having an American champion in the race will make the rest of the boys work hard to get his goat.

There is a rider by the name of Shock who hails from Baltimore but who at present is hooked up with the Carriker & Crowl shop over in Orange, and according to dope, this boy is some rider and the bike fans can look for a little excitement among the older pedal shovers this year.

The Santa Ana Ramblers will be represented with a large number of riders. The Gerwing brothers team is the club's one best bet.

"Some of these new riders are liable to spill the beans," said a rider today, "and give us some new dope. The more, the merrier."

Anyone who wants to understand the rules and regulations of the game should go to any bicycle dealer.

TRUCK TRAIN VIEWED BY EL TORO PEOPLE

EL TORO, May 6.—The motor truck exhibit accompanied by a number of soldiers and sailors reached El Toro Saturday evening about 6:30. Quite a number of people were present and the program was very interesting. Various kinds of guns were shown and the handling of each was explained. Also the soldier's pack weighing in at about 100 pounds, was shown. A naval officer made a short talk, relating some of his experiences while on the water. About \$6400 worth of bonds were sold.

FINISH THE JOB IS MESSAGE OF VICTORY LOAN TRAIN HERE

"America Never Yet Started Anything She Couldn't End," 7000 Crowd

"If there be any man in the United States who is able to buy, yet who doesn't buy bonds of the Victory loan, he should be shipped over to Berlin."

This was the declaration of Sgt. N. R. Cravens, U. S. Marine Corps, who gave his leg at Chateau Thierry for the American people and the Stars and Stripes. It was made during a talk last night at the Victory loan special trophy train, which was in Santa Ana from 7:30 to 10:30, and was visited by nearly seven thousand people.

"We Marines went into battle at Chateau Thierry with 8500 men," said Sergeant Cravens, "and came out with only 1635. That is the price we paid. You may say that I lost my leg there but I say that I gave it for you and the Stars and Stripes."

"You say you are tired of making sacrifices? Well, so were we tired. We were tired of going over the top, we were tired of German gas, we were tired of living with the mud and cooties, but if we had quit, you folks might not be coming and going and working at the back and call of flat-headed German masters."

Not Going to Quit

"But you were back of us through the first, second, third, and fourth loans and we didn't quit. YOU are not going to quit either, but you are going to put this last Fifth loan over the top."

There were other talks, too, by men who had gone through the hell of war. They are now asking America to "Finish the Job" through the Victory Loan. All bear the marks of Hun gas or bullets and their stories of sacrifices touched the hearts and pockets of those who heard them. These speakers were Lieut. L. J. Reese, U. S. Air Service; Lieut. Remi Knight, U. S. Army; and Private P. L. Smith, 72nd Seaford Highlanders of Canada, whose message was "Do your damndest; no good American will do less, no American can do more."

Santa Ana is now fifty per cent short of its Victory loan quota, and Friday night is the time set for going over the top. It was pointed out by R. L. Bisby, county loan chairman, who asked everybody to help that this aim might be accomplished for the honor of the community. John T. McBean of Los Angeles, assistant state director of the War Savings organization, introduced the speakers last night and said everyone should remember there are over 72,000 American lads who gave their all for America and the world, and are now lying in French graves. Soloists at the train were A. H. Leydecker, who sang "The Rose of No Man's Land," and Charlie Price of the U. S. Navy. The navy band from Mare Island furnished music.

In Charge of Train

W. D. Patterson is general train manager, others on the special being M. A. Peck, U. S. R. R. administration; W. E. Benton of Los Angeles, director of exhibits; Jos. P. Berry of Santa Rosa; Adjutant Guy Case, Salvation Army; Corp. Oscar Johnson, U. S. Army; and Private Earl Bowles of the 59th Division (Buffaloes).

Sergeant Earl and Private Wright, U. S. Tank Corps, were also members of the party, and gave a lively demonstration with the Whippet tank, which is part of the exhibit.

Following the program, the train was opened to inspection, and the crowd surged through, getting glimpses of many war trophies from the battlefield, including a wrecked Hun airplane, compressed air bombthrowers, German mortar taken by the Marines at Belleau wood, mirrowers, Allied and German machine guns, flame throwers and other relics.

Bond selling at the train was in charge of the Women's Honor Committee headed by the chairman, Mrs. A. J. Lawton, her "go-get-em" saleswomen including Mmes. J. William Sackman, W. F. Menton, H. M. Sammis, Cora B. Cavins, Hattie Vanderlip, and Miss Harriett Owens.

Sergeant Cravens recognized Mr. Calhoun of Santa Ana as an old comrade during the "little job" overseas and they had a happy reunion. Calhoun joining the party on the train during the stay in Santa Ana.

Today the train was at Orange, Anaheim, Fullerton and Los Angeles, and tonight will be at Long Beach, returning north to Porterville tomorrow.

ELECTION AT OAKLAND

OAKLAND, Cal., May 6.—Oakland voters will today decide at a general municipal election its future fire department program. The biggest issue on the ballot is listed under "Ordinance No. 2," which asks for a two-platoon system for all fire houses, giving the men a 12-hour day. At present each man is on duty 96 hours before he is given 24 hours leave.

DIDN'T PROMISE WIFE \$500,000. IS REPLY OF TOM HUGHES

"Jumped at Chance to Marry Me," Says Politician of Former Tustin Woman

In interviews, Tom Hughes, Los Angeles millionaire politician, has denied many of the statements made in the complaint filed in Los Angeles courts by his wife, Mrs. Gertrude Ozmun Hughes, formerly of Tustin, to whom Hughes was married last December.

He declares that he made no promises to give her \$500,000 worth of property, and he declares that there is a political plot back of the accusations made by his wife.

Mrs. Hughes in her complaint declared that Hughes asked her many times to become his wife, and it was not until after he had announced their engagement without her consent and before they were engaged that she agreed to marry him and that she agreed only because he said that for her to refuse would make him ridiculous and spoil his chances of becoming United States senator.

"Jumped at Chance"

Hughes declares that she "jumped at the chance" to marry him. Hughes intimates that affairs have not been going very well lately in his family.

Hughes says he gave his wife all of his first wife's jewelry, valued at \$7,000, and that he allowed her about \$1500 per month. He says he gave her \$500 to make a trip to Chicago before the wedding, and that since the wedding he has allowed her \$500 per month for household expenses. He bought her \$1300 worth of furniture, and paid \$2500 worth of mortgages for her.

Tells of Acquaintance

In his interview, Hughes recites the history of his acquaintance with Mrs. Hughes. He says it began years ago when Mrs. Hughes was a close friend of Hughes' first wife. The present Mrs. Hughes was then the wife of Roy Ozmun, a Los Angeles banker, who died at Tustin about thirteen years ago. Afterward Mrs. Ozmun became Mrs. Byron Oliver, a Los Angeles attorney, who died while Mr. and Mrs. Hughes and Mr. and Mrs. Oliver were on a trip to Mexico.

Mrs. Hughes' complaint asks for judgment for about \$500,000 worth of property that she alleges Hughes promised to deed to her if she would marry him.

Stenographers' Tests For Government Jobs Each Tuesday In S. F.

SAN FRANCISCO, May 6.—The Twelfth U. S. Civil Service District Bureau announces the following:

The government is in urgent need of stenographers and typewriters to meet the requirements of the service at Washington, D. C. The Civil Service Commission has been unable to secure sufficient eligibles to fill existing vacancies. Stenographer and typewriter examinations will be held in this city for the departmental service every Tuesday. There is excellent opportunity for qualified persons to obtain appointments in Washington at this time, at salaries ranging from \$900 to \$1200 per annum. Application blanks and further information may be obtained from the secretary, Twelfth Civil Service District, Post Office Building, San Francisco, Cal.

ANAHEIMER HEIR TO ESTATE IN RUSSIA

Anaheim Gazette: By the will of an uncle who died in Los Angeles, Kasper Chameris has become the owner of a landed estate in Kovno, Russia, valued at \$40,000. Under the present Bolshevik government having a title to property in Russia and getting the benefit of it are separate propositions, but we trust Kasper will have no difficulty in realizing on his legacy. Kasper's aunt, widow of the deceased uncle, will probably make her home with him.

PUBLIC WARNING

Public notice is hereby given that permits must be secured for all classes of building work. Alterations or improvements costing \$20 or less within the fire limits require permits. The same applies to the residence districts, except that fees are exempt.

It is my intention to prosecute violators and this warning is given in order to save trouble in the future for those who do building work.

THOS. ASH, Building Inspector.

Gobs Puzzle Land Lubbers Language Is All Their Own Girls are "Judies, Weezils"

If You Want to Know About a Ship, Don't Ask Sailor, Is Advice

BY ROY GROVE

NEW YORK, May 6.—Listen, all ye land lubbers, here's a tip. If you want to know anything about the Atlantic fleet, anchored out here in the Hudson for the Victory Loan, don't ask a sailor.

If you don't have an interpreter between you and the gobs you might just as well visit a Chinese fleet, for you won't be any wiser about battleships than if you were looking them over at a mile away.

One can easily see why the Germans found our navy a mystery. And since hostilities have ceased, I am sure the navy department will not object to my making a public code of their lingo.

I stepped aboard as a "harbor gasket" because of the white collar and tie.

The girls are known as "calicos, judies, dames, waxdolls, jelly beans, widders or weezils."

Coins are washers, clackers, jack, liberty bait, gilt, armor plate, holy stones and joy berries."

The man who thinks of nothing but eating is a "chow hound."

"The minute man" is the fellow who reaches the boat just as his liberty is up.

"Poggy bait" is sweet stuff.

The fellow who is a sore head is said to "shake a mean lip."

Peddlers are "bumboats" and a "beach comber" is one who bums sailors for jack.

Those who stay in bed are "bunk lizzards." The hammock is known as the "dream sack."

"Jacob's Ladder" is the ladder thrown overboard to take on passengers.

Anything that is O. K. is always "Jake" and the sailor who says, "I feel Jake. Just had two hours shut-eye exercise," has just rolled out of the bunk.

The old saying was, "By the Great Horn Spoon," and now it is changed to "By the Lord Harry."

"Doozy" is easy or agreeable.

For one to be "Gowd up" is to have too much liquor.

"Gadgets" are anything. If a sailor doesn't know the name of a thing it is a gadget.

The "black gang" are the boys in the engine room.

To get "down for the shoot" is to be called before the captain.

COUNCIL MAKES NEW RULE FOR IMPROVEMENT OF STREETS

Sewer, Water, and Gas Lines Must Be Run to Property In Advance of Work

Street paving in Santa Ana in the future will be on a different basis from what it has been in the past—if the city council sticks to a program outlined at the council meeting last night. The new regime will result as the suggestion of Trustee Tubbs.

The new order is that street paving contractors will not be given a permit to go onto any street for the purpose of starting paving work until they have secured a permit from the street superintendent, and when that permit is issued the superintendent will have to know that every lot is supplied with water and gas and that a sewer pipe leads from the sewer main to the property line. The superintendent will have to know that every effort has been made to have vacant property owners make those connections, and where those connections are not made, the owner will not be permitted to dig up the pavement and make the connection under five years after the paving is completed.

Contractors will be made responsible as far as possible for the connections. This feature came as a suggestion from Steele Finley. In the past there has been considerable pavement cutting soon after paving was completed in order to make such connections.

"The contractors as a rule are too anxious to get on the street to commence work, with the result that the necessary connections are not taken care of," said Finley, who is a paving contractor. "If you would make the contractors responsible, they would have an object in seeing that the connections are made and would use every effort to get in touch with non-resident owners and get an order for the work."

Suggestion Good One

"That is quite an admission from you and we know that the contractors are keen to get on jobs," said Tubbs. "Your suggestion is a good one, and one I believe we should follow."

"Make us responsible—that's the solution," declared Finley.

"All right, we ought to have a string tied to you fellows, and we should slip a knot in the string," was Tubbs' rejoinder.

Public utilities came in for a round of criticism, particularly in permitting old, worn-out gas mains to remain on streets where new paving is in progress and having to tear up the new pavement soon after its installation in order to make repairs that should have been made by replacing the mains on the street with new pipes before the improvement work was started.

While no formal motion was made with reference to all of these suggestions, it was generally understood that they will be adhered to strictly in future paving work, with special attention to new water and gas mains on streets to be paved. Requirement of a permit from the street superintendent

AUTO SPRINGS

One Leaf or Whole Spring

THE ONLY SPRING FURNACE IN SANTA ANA.

Agent for U. S. Springs made in Los Angeles.
Full Stock on hand for all the principal makes of cars.

Santa Ana Welding and Spring Works

Corner First and Sycamore

\$25.00 REWARD

Let your Thinker Think—Every Man—Women and Child has a chance for the above Reward—Think it over.

CONDITIONS BELOW

I Think You --- DICK

A CARTOON STORY OF THE MISHAPS OF THE AUTO will be published each week for 24 weeks beginning with the above. In each "Cartoon" Dr. P. S. will appear with his "Suit Case."

WHAT'S IN THE SUIT CASE?

I will give \$25.00 in trade for a correct answer to this question. The contents of the "SUIT CASE" will be shown clearly in at least two of the Series. CUT OUT EACH CARTOON AS IT APPEARS, 23 in number, and present them to me at my GARAGE before the 24th and last one is published (which will show the contents of the suit case) and receive the above reward—TIRES, ACCESSORIES OR WORK. If more than one correct answer is handed in, the REWARD will be divided equally.

YOURS FOR BETTER RUNNING AUTOS.

DICK'S GARAGE

DICK CRIBARO, Prop.

414-416 W. Fifth Phone 526

If You Want a Gas Range Purchase It During Week

If men had to do the cooking over hot wood and coal stoves, it wouldn't be long until there would be a gas range in every home in Santa Ana. However, there is a large percentage of the women in the city who use gas for cooking—we dare say fully 95 percent use gas against 5 per cent who have not this modern convenience.

As this is gas range week, every woman in Santa Ana will be interested in the campaign, especially those who have been contemplating substituting a new range for the old one by making the purchase during the week. While some of the local stores are out of gas ranges at the present time, those who are fortunate to have a stock on hand have put on window displays, featuring the various gas ranges to be offered. Every range has special features and all these are interesting.

The Crescent Hardware Company is featuring the Reliable and Dangler gas ranges and Buck's wood and coal stove. The Peninsular gas range is being shown by S. Hill & Son, the Chambers by Horton-Spurgeon Furniture Company, the Acorn gas range by the Santa Ana Hardware Company, the Superior gas range by F. P. Nickey Hardware Company, while the John McFadden Company is featuring the Detroit Vapor oil stove, and the Southern Counties Gas Company the Eclipse gas range.

Council Makes New Ruling For Street Improvements

Sewer, Water and Gas Lines Must Be Laid to Property Before Paving Is Done; Permits Will Be Withheld From Contractors

(Continued from Page Nine)

was made specific under a motion by Tubbs.

The board finds itself up against a peculiar situation on petitions to pave East Fifth street from French to Poinsettia. There are two petitions one filed two years ago by the Finley-Magill company and one filed a week ago by H. E. Smith of the Orange County Construction & Engineering Company. When Finley presented his petition, he was asked by the old council to hold off the work until after the war, as the government was urging the cessation of operations that required labor and materials.

Proceedings Are Dropped

Finley acquiesced and dropped the proceedings. He had a majority of the frontage signed up. Finley's contract with the property owners was signed at 1 1/2 cents per foot. The new contract is for 1 3/4 cents per foot. Finley cannot do the work at the old price and do it at a profit. He had been told by some who had signed two years ago that they would not expect him to do the work at the figure quoted then. They couldn't hold him to the contract, yet if they insisted he would stand by the contract.

It is up to the council to decide which of the contracting firms should be given permission to enter upon the street and do the work. Settlement of the matter was deferred to an adjourned meeting to be held next Monday night, it being suggested that in the meantime the two firms get together and effect a compromise that would be satisfactory to all concerned.

On motion of Greenleaf it was ordered that Fifth street be paved and that the city attorney notify the public utilities of the intention so that connections could be made.

Asks Connection Made

M. R. Heintger appeared before the board and asked that sewer, water and gas service connections be made on South Ross from Canille to Fairview. He intends to pave the five blocks within the next two or three months and wanted the extensions made at once so dirt in the trenches would have time to settle before the work is started.

Would Establish Miniature City

Roger D. Shipley, who has extensive property interests at the corner of Fifth and Shelton streets, intends the establishment of a small city on his property, according to plans outlined to the council, in his application for a permit to operate a pool hall.

Shipley owns the property at 1067-69-71-73 West Fifth street and a year or so ago built a \$10,000 residence there. He has made other improvements that has changed the appearance of the corner very materially. He now has plans for the location of an oil station, grocery store, barber shop and pool hall on the corner, and appeared before the board to ascertain its attitude before undertaking the enterprise, particularly with reference to the pool hall. He wanted a definite answer last night so that he could start his building operations at once.

The council held that the application for a pool room license should be referred to a committee, as it had always been the policy of the board to thoroughly investigate such applications before granting them.

The application was referred to City Marshal Jernigan, Police Commissioner Tubbs and Fire Commissioner Dale.

To Remove Sales Stables

Dr. J. I. Clark, City Health Officer, reported that the Board of Health was taking steps to remove the feed and sales stables from the center of the city and asked if the council had any suggestions to offer.

"There is considerable complaint from the corral and stables being operated in the close-in districts, particularly in the summer months," said Clark. "We believe it would be to the best interests of the city to create a district for this line of business, and we now have two locations under consideration."

"One is east of the railroad tracks on First street and the other is north of Fourth, near the old stock yards on the Southern Pacific. Owners of stables have said that if one was moved all should be moved and all would be agreeable to the establishment of the district."

The council had no suggestions to make and left the matter entirely in the hands of the health board.

For Aeroplane Station

Santa Ana has been investigated as a stopping point for aeroplane public service to be inaugurated by the California Great Western & Interstate Air Route Company. This fact was disclosed by a letter from R. J. Down, manager of the company, addressed to Mayor Mitchell.

Down advised that his company was preparing to institute a service throughout the southwest and that he and W. L. Shaw, aviator, had visited Santa Ana and looked over the lay of the ground.

He requested that the council do not take up with other companies who might attempt to secure privileges here and who perhaps might not be in position financially or equipped as well

as his company. The communication was filed.

Changing Fire Alarm Boxes

Wm. McCulloch, city electrician, was given permission to make certain changes in the location of five boxes to carry out plans started under the old council to make boxes more central in the business section, where they will be more accessible to night watchmen.

Centralization is being made by removal of boxes from residential districts, and when the plans are completed, boxes will be within close distances from block corners.

McCulloch stated that experience has shown that calls very seldom come in by box from residence districts, the phone being used practically in every case of fire.

McCulloch also was authorized to cause the removal of all "dead" electric signs. He called attention to the fact that there are a number in the city that had not been illuminated in months.

Appropriation for Band

At the request of former Councilman O. H. Maryatt, an appropriation of \$50 was made from the band fund to be used by the G. A. R. in compensating the High School Cadet Band for services it will render during the G. A. R. encampment here. The encampment opens next Tuesday.

Must Pay Half Costs

C. H. Chapman, reporting for the committee to which a petition for sewer on West Washington avenue was referred, recommended that the petition be granted on condition that the property owners pay half the cost, the money to be deposited with the city before work is commenced.

Want Higher Bond City Treasurer

Trustee Tubbs called attention to the fact that Mrs. Olive Lopez, city treasurer, had given only a \$10,000 bond. He thought it should be at least \$50,000 and Mayor Mitchell went him one better and thought it should be at least \$100,000. Daily balances are between \$50,000 and \$60,000 and Mitchell thought the bond should be for double the daily balances.

The law requires that the banks accepting city moneys give bonds and with the banks doing this the personal bonds of Mrs. Lopez might be sufficient. A. J. Crookshank, president, and W. B. Williams, cashier, of the First National bank, are the sureties.

Council Briefs

Tubbs, Dale and City Engineer Hoy were appointed a committee to negotiate with Mr. Wilson for half an acre of ground needed for roadway to the dump grounds in the Santa Ana river. Wilson refuses to grant an easement and asks \$200 for a half acre of ground along the river bank.

The council as a whole will meet at the city hall next Saturday at 2 p. m. for a trip of inspection over the route of the proposed extension of Myrtle street from Flower to Bristol. Interested property owners are requested to meet the council on the right-of-way.

On motion of Tubbs it was ordered that the secretary of the city water department be placed under \$5000 bonds, the city to pay the premium.

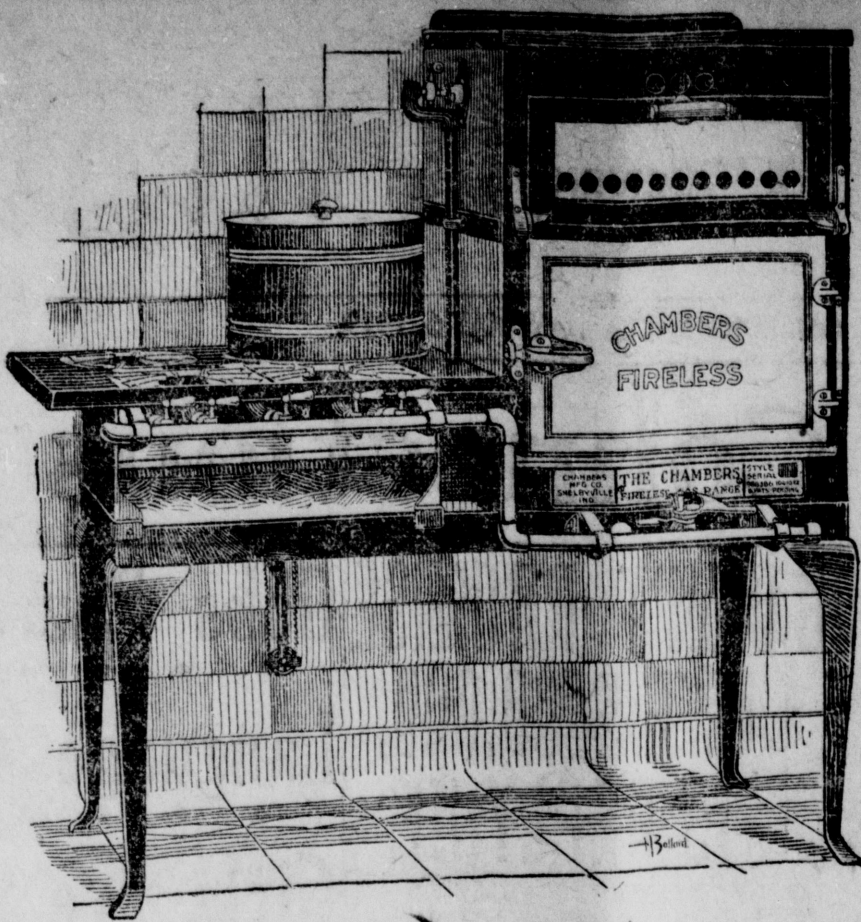

Dale and Chapman were appointed a committee to go over the license ordinance and make corrections, if any should be needed. Tubbs said that he believed there were a number of classes of business where the license is not as high as it should be.

Request of the Home Telephone company that its franchise here be cancelled was continued for action at the next meeting. City Attorney Scott said that he believed the company is half a year in arrears on its franchise tax and that this should be paid before the franchise is nullified. He will look after it.

On Greenleaf's recommendation the petition of property owners for acceptance of Halladay street, from Chestnut south to McFadden, was granted. The street, according to records, already has been dedicated, but the city never has done any work on the street.

That removal of popcorn and other stands on streets is under contemplation was made public by Tubbs in reporting on the application of Hawk for permission to locate a safety razor sharpening stand at the corner of Sycamore and Fourth streets. The permit was granted temporarily. Tubbs said that automobile parking was becoming a problem and that in the near future all stands would be removed to make the room available for parking.

A communication from the Fifth Street P. T. A. asking that sidewalks be made within the street along the paved portion of West Fifth street as a matter of safety for school children was filed. The organization passed resolutions similar to those being passed all over the country for foot paths along improved highways. Attention was called to the danger to children having to use the paved highway as a sidewalk in going to and from the Fifth Street school. Mrs. J. H. Stewart, president of the association, will be advised that if they will get up a petition for a side-

The Chambers Fireless Gas Range Presents Five Distinct Features That Make It Different From Others. As High As 50% Less Gas Used

By actual tests, a saving of 50 per cent may be easily made, and with a little care, a saving of as high as 70 per cent of gas consumption may be made. The thick, scientifically insulated walls retain all the heat units applied directly to the cooking of food. You conserve cold from ice. Why not conserve heat from the gas you use?

Big Saving of Food

Ordinarily, you get only six to seven pounds of meat out of every ten pounds of meat you cook, while a Chambers Fireless Gas Range will give you eight to nine and a half pounds. The tougher cuts of meats may be used. You can cook cod fish, onions, rice pudding and sauer kraut at the same time without mixing the flavors. The Chambers bakes, boils, roasts, broils, stews, steams or fries anything.

Fireless Cooker and Range Combined

The Chambers Fireless Gas Range is a combination of the best features of the modern gas range and the fireless cooker, both built into one scientific and thoroughly tested product. It is a real modern kitchen appliance in which there is no loss of energy in operating. It may rightly be termed a scientific, insulated gas range. It cooks at full speed even with the gas turned off, without danger of burning the food. It gives heat to the food instead of taking it from the food as in the ordinary cooker.

The Chambers Fireless Gas Range Is the Only One of Its Kind On the Market Today

What the typewriter, adding machine and comptometer have done for business, what the self-binder, tractor, automatic rake and hay loader have done for the farmer; what the kitchen cabinet and washing machine have accomplished in the home, the Chambers Fireless Gas Range has done and is doing for the American Kitchen.

RELIABLE GAS RANGES

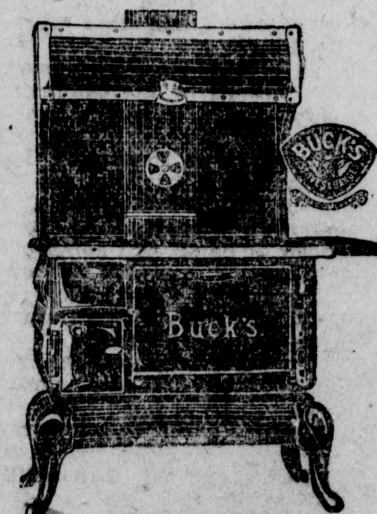

Get a Dangler Oil Stove

THE Dangler speaks for itself on points of convenience, economy and durability. They're economical because a rigid test proves that one gallon of oil will burn with a flame at cooking heat for more than 24 hours.

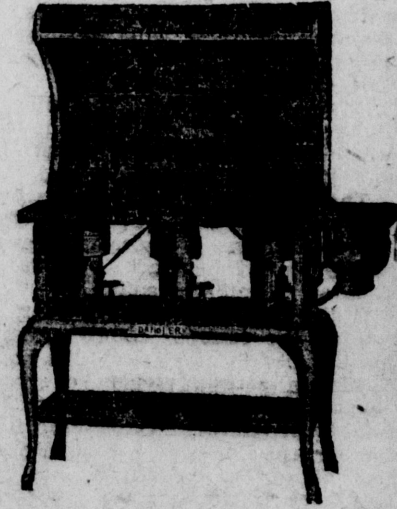

They're convenient because the flame is at just the desired height from the floor to make cooking easy.

A glance at the glass tank tells just how much oil is on hand, and you can readily see when it needs refilling.

They're durable because they are equipped with heavy burners, granite top and Baked enamel bodies which adds much to the life of the stove.

HORTICULTURAL WEEK BE HELD AT RIVERSIDE MAY 26-31

Plans Are on Foot For West- ern League to Protect Farmers

Horticultural week in Riverside, May 26-31, is intimately associated with reconstructive work in the development of the plant industry of California. Many times during the past there have been big conventions of fruit growers, but never before has there been such a convention week as that now proposed for the last week in May, to be held under the auspices of the State Commission of Horticulture. Six conventions are planned, and their programs are being so arranged that there will be very little conflict between the various sessions for those visitors who are interested in more than one of these conventions.

At this time when all the world is talking about the league of nations, it is very appropriate that California should take the lead in organizing a league of western states for the protection of the orchards and farms of this state against the introduction of injurious insect pests and plant diseases.

Natural Barriers

The states of the Pacific Coast are fortunately situated, in a measure, owing to the natural barriers formed by the ocean on one side and the mountains and deserts on the other, preventing the intrusion by natural means of those pests which are causing such great losses in other countries and in other states. Owing to the presence of these natural barriers, the plant pests may be brought into the western states only by means of some human agency.

It is the purpose of this, the first Interstate Plant Quarantine conference, to devise a policy of uniform quarantines whereby the western states may gain the fullest possible advantage afforded by these natural barriers. Governor Stephens has invited the governors of all the western states to send representatives to this conference.

Others Invited

He also has invited British Columbia, Lower California, Mexico and the territory of Hawaii to be represented. The chairman of the Federal Horticultural Board, C. L. Marlatt, has already signified his intention of attending this conference, and he will tell of the quarantine work done by the Federal Horticultural Board and advise with the delegates from the western states in framing their policies.

The fifty-first Fruit Growers' and Farmers' convention will be attended by these representatives of other states who will be particularly interested in hearing the discussions on matters of local interest by California fruit growers. Every co-operative marketing association in the state will be represented at this convention, and a brief talk on their activities will be made by each representative.

Nurserymen Meet

For the first time in the history of the organization of the nurserymen of California, that association will meet in conjunction with the fruit growers and county horticultural commissioners. The opportunity afforded by the convention for the nurseryman, who grows the trees the fruit grower, who buys the trees, and the county horticultural commissioner, who inspects them while in transit from the nurseryman to the fruit grower, is bound to result in a better mutual understanding than has existed in the past. The great development of the horticultural industry of California has been due in no slight degree to the initiative displayed by the nurserymen, and it is a great step in advance that they will convene at the same place and during the same week with the other horticultural interests of the state.

Vegetable Growers

The vegetable growers, profiting by the experience of the fruit growers in standardizing the pack of fruit, have taken great interest in standardization of vegetables. A Vegetable Growers' conference has been arranged to be held at Riverside on Monday and Tuesday of Horticultural week for the purpose of formulating plans for applying the standardization law to the packing of vegetables, and for the purpose of discussing uniform rules and methods for the certification of potato seed. Representatives of other states who are interested in these problems will be present and a very interesting program and a fine attendance are assured.

For those interested in entomological problems, it is of interest that the Pacific slope branch of the American Association of Economic Entomologists will hold their annual convention at Riverside at the Citrus Experiment station during Horticultural Week.

This is Gas Range Week In America; Praises Sung

Good Reason For Celebration, For Is There Anything More Wonderful, More Useful, More Labor-Saving, More Economical Than One of Those Spiffy New Gas Ranges?

Did you know it? Everybody's celebrating it! Celebrating what? National gas range week. And why shouldn't they? Is there anything more useful, more conducive to comfort, more labor-saving and more economical than a gas range?

Ask the housewives who do all their cooking with gas, and they will answer with a resounding "NO!" Ask the restaurant and hotel chefs and they also will answer in the negative. Ask the tired laborer, merchant or clerk, who comes home at night to a contented wife and a well-cooked meal, and you'll get the same reply. And, with this mighty army singing the praises of the gas range, one could hardly expect the gas companies and the range manufacturers to contradict them.

It is a far cry—and a wailing cry—from the old-fashioned coal and wood stoves to the modern gas range, and a good deal of the wailing has been done by the women of the world who have a habit of making men work and who are largely responsible for the tremendous improvements over the old methods of cooking. In former times the preparation of a meal was often a tragic affair, and always an unpleasant accomplishment. Getting dinner in "ye olden days" meant blackened hands, burned fingers, the inhalation of soot and dust and no end of other inconveniences. It meant often a weary waiting for the coal man to come, it meant that little Willie must stop his play or study to cut the kindling, it meant a trial of patience on the part of the wife, waiting for the stove to "draw"—and then, to cap it all, maybe the stove pipe collapsed and ruined the linoleum, and father came in, swearing, not because the linoleum was spoiled or because the house had caught fire, but because there was no dinner!

However, it is good to know that there is a larger percentage of people in Southern California who use gas for cooking than there is in any other district of the United States.

Needless to say, the chief reasons for this are cheap gas, the saving of labor and worry, and the comfort of cleanliness. And who would not rather see the gas-bill collector coming than to dig up for a load of dirty, black coal?

Decrease in Cost

The proper combustion of gas should be at a ratio of five parts of air to one part of gas, and the difficulties formerly encountered were caused mostly by the manufacture of inferior ranges, the construction having been such that the proper combustion could not be effected. As far as economy is concerned, the price of gas today is small indeed, compared to old-time prices. There was a time when gas sold for \$7 a thousand feet. Even as late as 1892 the price was \$3 a thousand.

Discovery of Gas

Gas was discovered by William Murdoch in England, in 1819, the discoverer having put some pieces of coal into a tea kettle—his first retort. The second retort was an old boiler. Murdoch had a pipe running from his back yard into the house. Valves were un-

known at that time and Murdoch used clay to shut off the gas.

One evening the clay dropped from the end of the pipe and was carried away on somebody's shoe. Looking around for something to stop the pipe, Murdoch saw a thimble, which he seized upon and inserted into the pipe. The thimble had been worn so that there were tiny holes in it, and when Murdoch put a flame to the gas that leaked through the holes of the thimble he found that this produced a better light than had the gas when coming out through the pipe in a single flow.

That was the first burner—and, incidentally, the death of the tallow candle. Murdoch later made improvements in the use of gas for lighting and heating. Although a man named Sharp, also an Englishman, was the inventor of the original gas range, it is contended that the French, as a people, were the first to apply the invention for practical purposes.

The First Ranges

Crude ranges first began to be used in England in 1830. Even America's first ranges were English-made, although a factory was built and operated in Philadelphia in 1850. In 1860 there were 100 gas ranges in Cincinnati—which proves Cincinnati's progressive spirit. In 1850 the gas range was huge and cumbersome, made of cast iron, with solid, heavy top, and resembling an old coal range. Some ten years later a range approaching the perfection of the present range was patented.

These later ranges also had solid tops, although the sides were made of sheet iron. The first open-top ranges were made in 1875. The first gas company ever to have handled ranges as a commercial proposition was established in Rhode Island in about the year 1850. Today most of the big factories are in Michigan and Ohio.

Among the pioneers in the manufacture and improvement of ranges in America were Schneider and Trenkamp of Cleveland, O., and the late Professor Lowe, "father of the gas industry in Southern California." There is a vast difference between the up-to-date range and that of seventy, sixty and even fifty years ago, although most of the improvements have tended rather away from complexity and toward simplicity in both mechanism and style.

Probably the greatest improvements have been made in burners and valves. Formerly, it was impossible to regulate the flow of gas, which naturally made its use both expensive and dangerous. If one could see an old-fashioned square, black range, with its many bolts and fastenings, its asbestos lining, its old glass doors and crude carvings—and then turn his eyes to one of the fine new, danger-proof ranges, made of the best of iron, without bolts, with double-wall construction, with beautiful, though plain, enamel trimmings, with pyrex glass oven doors and with its countless other beauties and conveniences; if one could see these two ranges side by side, he could hardly believe that the latter is only an improvement on the former, instead of being an entirely new device.

BASE HOSPITAL UNITS ARE WELCOMED IN L. A.

LOS ANGELES, May 6.—Los Angeles yesterday welcomed the return of Base Hospital Units Number Thirty-five, constituted of Southern California boys, and Number Forty-seven, made up of San Francisco boys, which passed through here en route for Camp Kearny and the Presidio, where demobilization will be effected. Both units have been in overseas service for the past ten months.

The Southern California contingent was in command of Captain Elliot Alden. The unit will be mustered out at Camp Kearny. Unit Number Forty-seven, in command of Major William A. Bryant, a prominent San Francisco surgeon, left for the Presidio over the Southern Pacific early yesterday evening.

TIGERS TOO LATE FOR SAN FRANCISCO GAME

SAN FRANCISCO, May 6.—No train; no games. The Oaks are scheduled to go through this morning, the Vernon Tigers will not arrive until late this afternoon, having had to jump all the way from Seattle.

The biggest series of the week is scheduled for Los Angeles. The Seals left last night for the southern metropolis, confident, etc.

Salt Lake and Sacramento will swap base hits at the capital city.

Seattle and Portland will fight for cellar championship honors at the Beaver camp. With new battle formation for the Rainiers prognosticators won't take a chance on predicting who will be occupying the eighth position by Sunday.

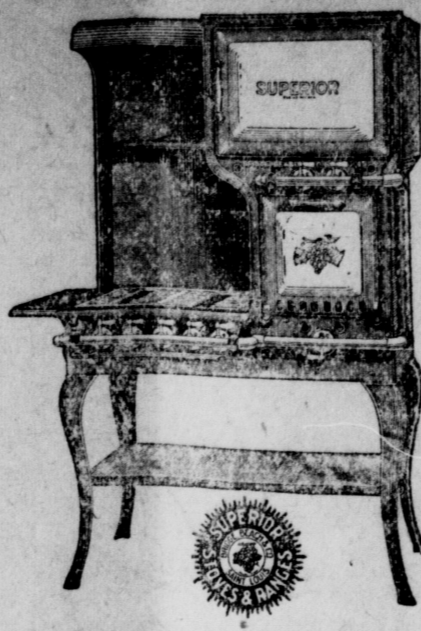

The Scoreboard

Yesterday's hero: Duffy Lewis. The former Red Sox scored three of the five runs the Yankees counted in Boston in defeating the world champions.

Nearly enough men to make two teams were shot into the pastime at St. Louis by Branch Rickey, but it was useless. The Pirates won, 5 to 2. When Eller, Red pitcher, did aviate, he made a good job of it. The Cubs hit safely nine times for six runs, tying the count, and then they won in the twelfth, 7 to 6.

The Dodgers loafed into the National League leadership when the Morans dropped one. The score of the Washington-Atlantic game was only 10 to 6, with the Senators winning.

If you desire to look your best, Sutorium cleaning will do the rest. Call 279. 421 North Main.

The "Bolo" oven in the Superior Gas Range effects a saving in gas and time of nearly 50 %

"Bolo" means "big or little oven." It is found only in a Superior Gas Range. The "Bolo" oven is so constructed to reduce the capacity of the baking oven in cubic inches to half its regular size, this being accomplished by removing the "Bolo" oven slide from the tow set of runners to the sixth set from the bottom. This keeps all the heat in the bottom half, saving nearly half the gas ordinarily consumed in the old-fashioned ranges. While the "Bolo" oven is baking Pies, Biscuits, Muffins, Potatoes or any other articles not requiring the full height of the oven, the upper half makes an ideal place for warming plates or keeping food warm.

The Superior Centrifugal Burner, found in our gas range, combines principles found in no other one piece burner. Its peculiar shape brings the heat directly under and not to the sides of cooking vessels. The burner is easily removed for cleaning.

18 reasons why you should buy a Superior

1. Black wood handles always cool.
2. Copper containing steel.
3. Enameled porcelain door panels, dirt trays and broiler pans.
4. Dipped and baked on black enamel inside and outside.
5. Cast Iron front door frames.
6. Bolo Oven, 1/2 the time, 1/2 the gas and 1/2 the expense.
7. Aluminaized Linings.
8. Center heat oven burners, perfect control of heat, uniform baking.
9. Electrically welded, re-inforced steel and asbestos lined oven bottoms.
10. Concealed flues, giving perfect ventilation to ovens.
11. Body electrically welded, no open cracks to catch the dirt.
12. Swing door, no rusting out of springs and broken hinges.
13. Parallel pronged grates easily cleaned.
14. Superior centrifugal top burners (Patented) burns less gas and produces more heat.
15. 3/4 inch manifold extra heavy nicked.
16. Porcelain Gas Valve handles.
17. Oven linings and burners easily removed without tools. No bolts or screws.
18. Adjustable gas valves.

You Will Want One of These Stoves If You Will Come To See Them For the New Home

It is a well-known fact that, home for home, the American household has more comforts and conveniences than that of any other nation. This is due to the American housewife's ability to furnish a home and to her ingenuity in selecting modern comforts.

You will be more careful than ever about selecting a range (gas or oil) for your new home.

What kind of a range will it be—an ordinary make, or one of ours? After thorough investigation—that is, after looking at various makes and studying their construction, their appearance, and what is most important after hearing the verdict of Users, there could hardly be but one answer. And that is to step in and see our ranges.

Have You Seen the Detroit Vapor Oil Stove?

Here's the newest thing in Stoves. The Detroit Vapor Range. It is the best thing invented for the housewife in years. Just read a few of its many advantages as enumerated below. To the home without gas connection the Detroit Vapor Stove is priceless. It is the only absolutely odorless oil stove manufactured. Come in and see it. We can show you more good points about this fine gas-less range in five minutes than you can read here in half an hour. Come in, please.

QUICK BAKERS—as fast as Gas—the Detroit Vapor range oven uses the heat twice through a double flue system and has a double lining. All oven linings made of aluminum-fused steel, which is sanitary, durable and rust-resisting.

SIMPLE—No complicated mechanism—every detail understandable. A child can easily operate a Detroit Vapor stove; there's nothing to get out of order, burn out, or need replacement. They are the final word in simplicity.

INTENSE HEATERS—all the heat is directly under the utensil. The heavy iron burners generate a much greater heat than is possible with wicks or rings—fully equal to gas.

ODORLESS—when the valves are shut off there is no leakage of fuel into the burner and no bother of turning down wicks. As all the fuel is burned at the right temperature, there is positively no odor.

ECONOMICAL—they will handle even the cheapest grades of gasoline or kerosene, and are much more economical than coal, wood or gas. They save practically one-fourth the fuel required by other liquid fuel stoves.

This stove burns oil, gasoline, or distillate. It has no dirty wicks, no odor, and it is as hot as gas.

It brings the comfort of the city to everyone. We want you to see the stove you will finally use—the Detroit.

Acorn Gas Ranges

The Acorn name is famous from coast to coast. The Acorns are beautifully finished, substantially constructed, splendid bakers and save gas.

Every Acorn Range is guaranteed to give perfect satisfaction and to be priced as low as any on the market.

Come in and get acquainted with the Acorn. We will be glad to show you these Ranges whether you want to buy or not.

EIGHTY-NINTH WINS FOOTBALL CHAMPIONSHIP OF A. E. F. IN SERIES PLAYED ON GERMAN SOIL

Many Crack Gridiron Heroes Among Soldiers Stage Hot Contests

COBLENZ, May 6.—Among the games American soldiers are playing to while away the time on German soil is football. There are many crack players still in the service and some very warm contests have been played. The above pictures were snapped at a recent game between the Fourth Division and the Eighty-ninth. This was a championship game, the title being won by the Eighty-ninth.

In the lower section of the picture are, left to right:

Major Otis L. Guernsey, former Yale football and baseball star, umpire in championship games; Lieutenant Adrian H. Lindsay, University of Kansas star, right halfback and captain of Eighty-ninth Division team, A. E. F. football champions; Eddie Mahan, former Harvard star, coach of Eighty-ninth team; Captain Eddie Hart, former Princeton star, coach of St. Nazaire team, one of the Eighty-ninth's earlier conquests.

FULLERTON AND WHITTIER WILL PLAY FRIDAY

FULLERTON, May 6.—Friday found Fullerton high school at her best on the athletic fields, for the baseball team went to Pomona and gave the ball tossers of that city's high school a trimming, and the tennis team stayed at home and walloped the racket fans of Whittier high school to the tune of 4 to 3.

As has been reported, Fullerton decisively defeated Pomona, and it was a hard pill for the good folks "over the hill" to swallow. The students took it in good form, but some of the village fans gulped hard and loud as the goose eggs piled up, and some went even so far as to threaten the good umpire who handled the game. Fullerton has made it right merry for Pomona all the year, having defeated her in football, baseball and track, though the latter was awarded finally to Pomona because of a fluke on Fullerton's part.

The tennis match was a dandy. Whittier, famed for tennis, could see nothing but victory for her lads, but the Fullerton combination was too much. Every set was closely contested. That "Fullerton fight" was there in the pinches and the poets went home with the small end of the score.

Friday Whittier tries Fullerton at baseball. The game will be at Fullerton at 3 o'clock. It will be the last league game of the season, unless Pomona should happen to wallop San Diego, in which case a tie will result, and as in football a series of play-off games must be arranged. The Whittier game should be a good one and Fullerton is expected to cop it unless all signs fail.

INTEREST IN MAT BOUT

LOS ANGELES, May 6.—Benny Reuben, who meets Walter Miller here Thursday night for the world middleweight wrestling championship, worked out at the Los Angeles Athletic Club today and interest in the bout immediately increased. He surprised many spectators with his showing. Reuben arrived from Chicago yesterday.

Brushes! Mrs. Cheney, office, room 8, Reinhaus Bldg., cor. Bush and 4th. Residence, 607 East 5th. Phone 1265-W. mornings and evenings.

ARBuckle NOW OWNS VERNON BALL CLUB

LOS ANGELES, May 6.—Doff the skyscraper to Fatty Arbuckle, for the modern Falstaff is now a full-fledged baseball magnate. By a train of circumstances yesterday he came into the ownership of the Vernon Baseball Club. The deal was consummated at about 4 p. m., at the office of Attorney McCormick in the Van Nuys building. Among those present when the transfer was made were Lou Guernsey representing Arbuckle, Al McCormick representing Tom Darnody, Ed Wehrle looking after Eddie Maier's interests and Senator Chamberlain dittoing for "Puss" Halbritter.

As Fatty passed into the dignity of a diamond mogul Eddie Maier shook him by the hand and chortled, "Roscoe, I wish you all kinds of success." "Thank you, Eddie," replied the screen favorite, "I'm just going into it for the sport of the thing, and nothing else."

Following salutations, Arbuckle was elected president of the club, and "Puss" Halbritter, vice-president and business manager. The corpulent comedian will not go north this week to see his new acquisition in action, but will probably take a whirl around the circuit with the Tigers when they go on their next road tour.

Manager Halbritter will also remain in Los Angeles while the Bengals are battling the Oaks this week, but will travel a spell with the club on its next itinerary.

By the transfer of stock, Arbuckle comes into possession of the controlling interest and will have absolute sway over the destinies of the Vernons. His first official act was to announce that Manager Essick had purchased Pitcher Dawson of the Indianapolis club.

Try our Cottage Cheese mixed with cream, ready to serve. Delivered every afternoon from Wilsons. Excelsior Dairy Co. Phone 237.

TOLEDO CHOSEN FOR WILLARD BATTLE

Many Protests Expected to Be Made Before Big Fight July 4

BY H. C. HAMILTON
(United Press Staff Correspondent)

NEW YORK, May 6.—Tex Rickard has spoken and Toledo is the place where Jess Willard and Jack Dempsey will battle on July 4. Full many a wall of protest is scheduled to take the air between now and Independence Day. But the very fact that Rickard declined to confirm rumors of the selection of the Ohio city until the last detail had been attended makes it unlikely that unforeseen obstacles will appear in the path of the bout.

There is an undercurrent of opposition to the battle that is likely to give some trouble but only in a passive way. There are said to be men connected with the pugilistic game who have striven to throw impediments in the way of the famous promoter but these men are not expected to do any great harm.

Rickard has withheld their names but has promised to give them publicity in a statement if their efforts to block him continue.

Some opposition to a bout of only twelve rounds, even with a decision attached, already has been spoken in this section but this is rather far fetched in view of the prowess of Dempsey. Rickard could have built his arena in Idaho for a bout of twenty-five rounds but by placing it in Ohio the crowd will be greater and accommodations better for the huge crowd he expects to handle.

The promoter believes an arena for from 40,000 to 50,000 is the largest he can construct and will make it possible for the seat holders farthest away to see the battle. Prices will range from \$5 to \$50, which should give the promoter a minimum of about \$350,000 in receipts. He will pay \$127,500 to the boxers. The battle will be staged at Bayview Park, according to present plans, which is on Maumee Bay and under the jurisdiction of Toledo officials. Governor Cox, Rickard believes, will not interfere for the Ohio law.

An Explanation

It is often puzzling to understand the financial success of an acquaintance who has merely ordinary ability.

Usually these successes are the result of a person's making the very utmost of both what ability he has and what money he earns.

Money in a savings account at this bank earns good wages—4 percent interest compounded semi-annually. Besides this, a willing personal service—practical to the furtherance of one's interests—is extended to every depositor regardless of the size of the account.

We welcome inquiries regarding the advantages of our sound, helpful banking service.

The Strong Home Bank.

The California National Bank of Santa Ana

Rickard's attorney gives assurance, puts it squarely up to local authorities to decide whether or not they want boxing contests.

LOS ANGELES, May 6.—"Toledo suits me," was Jess Willard's comment today on Tex Rickard's selection of the Ohio city as the place for his championship bout with Jack Dempsey.

"I have always said anywhere suits me," Willard went on. "Toledo or Turkey, anywhere's all right."

"We can do a lot of fighting in a dozen rounds. We should have no difficulty in settling who's the better man in a 12-round battle."

Then the champion went back to his early morning workout.

EXCELSIOR SPRINGS, Mo., May 6.—Jack Dempsey, returning from early morning roadwork today, expressed entire satisfaction with the prospect of a 12-round go at Toledo, Ohio, with Jess Willard on July 4. Dempsey let it be known he favors the limit fixed by Tex Rickard over the longer route.

The heavyweight title contender had lost none of his confidence in his ability to usurp the heavyweight crown. He regards the announced location and fight limit as asset rather than liabilities.

TOLEDO MAYOR WILL GIVE FIGHT PERMIT

CINCINNATI, May 6.—Cornel Schreiber, mayor of Toledo, here to appear in a case before the United States court of appeals, said he positively will grant a permit for the staging of the Willard-Dempsey fight for the heavyweight championship of the world at Toledo, July 4. He said he saw no objection to the boxing exhibition as it would be of a scientific nature and would net from \$25,000 to \$30,000 for the city's charities.

He said he favored the bout because of its advertising value to Toledo.

Velvet

THE SMOOTHEST SMOKING TOBACCO

WHEN I smoke, I want my tobacco cured by Mother Nature—not by Mother-in-law Process.

Velvet Joe

There is nothing harsh in Nature's methods—no stunts, no "hurry-up."

Her quiet, patient way with VELVET during its two years ageing in wooden hogsheads, brings out all the kindly comfort of fine Kentucky Burley leaf.

The quicker, less expensive methods cannot possibly produce the fragrance, coolness and downright pipe qualities of VELVET, cured in Nature's way.

Today it is your privilege to enjoy, with hundreds of thousands of other smokers, this mild and friendly VELVET tobacco.

Roll a VELVET Cigarette

VELVET's nature-aged mildness and smoothness make it just right for cigarettes.
